Public Works Director. Position presently combined with Town Engineer. As Public Works Director, manages all aspects of the Public Works Department. This includes in-house and contracted road maintenance and sanitation services. Serves also as the Tree Warden and Fleet Manager. As Town Engineer performs in-house efforts and secures and coordinates consulting services as necessary to satisfy administrative needs related to local requirements and regulatory mandates, and to meet review needs for development activity and other departmental needs. Salary per terms of RESOLUTION ESTABLISHING ADMINISTRATOR/DEPARTMENT HEAD BENEFITS (i.e., "Increases in wages shall be effective on the first day of July and may not be less than the percentage of the highest union contracted increase for that fiscal year.")

The Town will need engineering consulting services for support of various projects and/or tasks requiring specialized expertise. The demand for such services will remain high in the absence of a full-time Engineer and any increasing demands associated with regulatory mandates and expanding infrastructure needs. This account provides for baseline MS4 Stormwater mandate support, miscellaneous surveying and minor civil design needs, and other services associated with engineering administration. Starting in FY20 it also provides for GPS service for select PW fleet vehicles. Starting in FY21, this account funds a road temperature sensor service. Starting in FY24, this account began funding an online asset maintenance program (Brightly). The increase represents inflation and the cumulative impact of these added services.

This account provides for mandatory CDL driver drug and alcohol testing services, dues for professional engineer licensing and the Connecticut Tree Warden Association, reference materials, meetings/conferences, and mileage reimbursement. Inflationary increase. Provides payment for extra hours of work according to union contract requirements. Provides for payment of personnel when working beyond normal working hours for purposes other than snowstorms, e.g., after-hours response to emergencies such as fallen trees/limbs, debris clearing, sign posting. Also used when Department crews perform construction-type projects and tasks where the need to complete particular phases of work before shutting down for the day arises due to unforeseen events. There are also instances where planned overtime is prudent to minimize the impact of certain tasks to residents. Increase reflects adjustment for contractual base wages increases and increased grow size

This account has provided modest funding for summer help to augment full-time workforce at a time when road and building maintenance activity peaks and full-time workers are taking vacation. Provides funds for temporary employees during the contractually-allowable period of May 15th through September 15th. With the additional full-time employee added in FY23, and with the limited pool of available individuals, this has been reduced to cover only one net part-time individual over the course of the allowable period

Highway Superintendent salary in keeping with Collective Bargaining Agreement. Highway Superintendent is the first line supervisor for the Public Works workforce, comprising the Highway, Buildings and Grounds, and Garage divisions. Current contract expires 6/30/25.

Provides funding for Public Works employees in the Highway and Buildings & Grounds divisions in keeping with the Collective Bargaining Agreement. This includes the following contract positions: Leadman, Buildings & Grounds Foreman, Operators (2), Maintainers (10), and Laborer. The manning level reflects a reduction from its peak manning by eight individuals for most of the last thirty years. With the increase of infrastructure of about 17% over that same time, the winter and construction season maintenance needs have steadily increased, straining resources in a number of ways that negate our ability to keep pace. Thus, the workforce represents a lean number that at times struggles to keep pace with the full range of infrastructure tasks.

Provides for moving an employee of lower paygrade into a higher position due to the absence of another employee and/or the nature of work. Some upgrades are mandatory because of contract requirements.

Provides funding for part-time snow help mobilized to supplement full-time forces during winter operations. These forces were typically mobilized only as necessary to meet the needs of particular events. These needs have tended to vary greatly depending on the nature of the winter and the cumulative state of the full-time staff and associated availability.

Provides for payment of personnel beyond normal working hours during snow plowing, salting, and support operations. Expenses and budgeting needs are subject to wide variation depending on severity, timing, and frequency of snow and ice events over the course of a winter season. The budgeted amount proposed assumes needs would be average and anticipates need for supplemental appropriations in event of a bad winter. Typical number of snow OT events per year is 15 to 20 @ average \$6,000 snow OT per event. Snow OT costs have continued to increase in keeping with annual salary increases.

Provides funding for Public Works training plan leading to such certifications as CT Roadmaster, with emphasis on safety and improved efficiency. Safety training will help with CIRMA risk management rating. Also covers, as necessary, contract provision for copayment of CDL A license acquisition.

Provides for planned and contingency contract services. Does not account for historical average of costs (~\$80K) of vital services typically funded by TAR funds, including roadside spraying, annual gravel road maintenance, and other road right-of-way maintenance for which these funds are inadequate. This budget anticipates no loss of TAR funds. Inflationary increase.

Telephone and cable service to Public Works garage, telephone service to Transfer Station monitor shed (regular use and incidental service/repair expenses), and cell phone service for the Director and Highway Superintendent.

This account provides for unleaded gasoline used by PW Department vehicles and equipment, and other municipal and emergency services vehicles; also includes engine oils, lubricants, fuel additives, etc. and service expenses for tank servicing (water removal, etc.). Approximately 35,000 gal/yr including BOE demand. BOE pays directly for its usage, which offsets the budgeted amount down closer 10,000 gallons. The Police budget carries funds for portion of gasoline delivered to fuel station required for Police fleet needs (about 24,000 gal). Budget reflects no change from FY24.

Diesel fuel used by PW Department vehicles and equipment and both Ledyard and Gales Ferry Fire Departments. Approximately 21,000 gal/yr, anticipating the demands of a normal winter. Purchase according to either a fixed or floating price will be undertaken according to what seems most favorable. Budget reflects no change from FY24.

Provides for contractual uniform and boot allowance for Public Works personnel. The Highway Superintendent receives an allowance of \$650 and each Teamster bargaining unit member receives an allowance of \$750 for approved items individually purchased ( $\$650 + \$750 \times 18 \text{ personnel} = \$14,150$ ).

This account covers miscellaneous needs for office supplies and small tools and equipment items. As to office supplies, provides for purchases of general items, used mainly by Hwy Superintendent and Maintenance & B&G Foremen (markers, folders, paper, misc. pads, forms, notebooks, copier supplies, computer supplies, printer supplies, organizers, file containers, etc.). Provides for various hand tools and small power tools, replacements parts, expendable parts, etc., used by Highway, Buildings & Grounds, Garage personnel. Also provides for bottled water, which is required for Public Works Garage because the on-site well source for water supply is non-potable and suitable for utility purposes only. Increase reflects increased water costs and other inflationary adjustments.

Provides for miscellaneous safety equipment, services, and apparel, fire extinguishers, work gloves, lights, glasses, ear plugs, rain gear, repair/recharge of extinguishers, insect and pest agents, first-aid kits, etc. Inflationary increase.

Primarily covers stipend payments for meals entitled to the PW crew during overtime events, in accordance with the terms of the contracts. Also provides for food purchased separately to ensure meal availability during severe storms likely to disrupt normal services.

Increase reflects substantial contractual adjustment for meal allowances.

Provides funding for Public Works employees in the Garage division in accordance with the Collective Bargaining Agreement. This includes the following contract positions: Maintenance Foreman and Mechanic, and the added position of Mechanic 2, which is subject to the terms of a Memorandum of Agreement between Ledyard and Preston for the covering of their fleet maintenance needs.

This account provides for miscellaneous shop supplies and minor services. Inflationary increase.

The Department utilizes on its large plow trucks carbide tipped plow blades (about \$1,500 apiece) in combination with regular blades to reduce the frequency of replacement. This account also covers resupply of blades for smaller dump and 4WD pick-up trucks used for snow plowing. About 3 carbide sets and 8 regular blades are required annually, but the cost of steel continues to increase. Adequacy of the budgeted amount depends on the severity of the winter.

Provides for a wide variety of replacement and repair parts and accessories for vehicles and equipment and for labor for jobs farmed out because of the lack of in-house resources or capability. Used mostly for servicing PW as most other Town departments have separate budgets for maintenance of their vehicles and equipment. The pressure on this account has increased as extending life cycles of vehicles has been required to reduce capital outlays and due to dramatically increased complexity and vulnerability associated with added electronic and emissions controls. Also, the budget value reflects the impact of average winter operations on plow trucks and related equipment. Modest increase reflects the recent historical trajectory of maintenance costs.

Covers services that provide oxygen and acetylene gas for welding and cutting and associated accessories and supplies. Expenditures are variable depending on type and frequency of repairs, fabrications and modification work on equipment, vehicles, etc. Efforts to stretch the life cycles of trucks and equipment continue to put pressure on the expenses incurred in this account, whether work is performed in house or farmed out. Inflationary increase.

Provides for tires for the Department's vehicles and equipment - expenditures for vehicles are fairly routine, whereas tires for large equipment tend to be expensive and can have a sudden significant impact on budget (e.g., loader tires may be several thousand dollars apiece). Modest inflationary and trend increase.

This account covers expenses for treated salt and any other winter treatment materials. The estimated average winter treated salt quantity needed is 1,500 tons. Price per ton had ranged between \$65 and \$85 from FY16 to FY22. But the price for FY24 jumped dramatically from \$77.33 in FY22 to \$99.88. That was a cost increase of about 56% from a low in FY21. We experienced a reprieve in FY25 of a drop to \$91.52, but cannot guarantee that this precludes a return to increases.

Covers cost of minor damage from snow plowing (e.g., mailbox repair).

Covers expenses of miscellaneous repairs and patching carried out by PW crews in conjunction with spot patching, drainage work, pavement repair, preparation for road resurfacing, etc. Reflects substantial reliance on TAR funds and assumes no loss of TAR funds to cover additional asphalt expenses at historical average in excess of \$20K.

Covers costs of marking of intersections, crossings, etc., and replacement/repair of street and traffic signs by PW crews. Demands have increased to meet FHWA mandates for signage maintenance and improvements. Reflects substantial reliance on TAR funds and assumes no loss of TAR funds to cover additional signs and markings expenses.

Covers cost of contracted metal guide rail repair work. Major installation work and repairs have been funded by TAR monies, when available. This account has provided nominal funding for repairs only and reflects substantial dependence on TAR funding (assuming adequate appropriation by State). Budget anticipates no loss of TAR funds to fund additional work. Insurance reimbursement is sought wherever possible with respect to guide rail damaged in motor vehicle accidents.

Covers tree and limb removal beyond capability of PW department personnel and equipment. There are both ongoing and emergency needs. This includes the substantial road canopy needs that we are gradually addressing. TAR funding has been leaned on for inadequacies in this fund. Supplemental and/or budget transfers funding has been applied in an average amount which had exceeded \$30,000 for several recent years to keep pace with the removal needs, which have been exacerbated by a number of widespread disease and pest-related scourges. The increase starting in FY24 reflects this.

Covers various road base and shoulder materials for miscellaneous pavement repair/reconstruction and drainage work. Reflects substantial reliance on TAR funds and assumes no loss of TAR funds to cover additional expenses at a historical average of about \$10K.

Covers mainly the costs of materials used by PW forces in the construction and installation of drainage improvement projects and facilities, including permanent and temporary erosion and sedimentation control measures, as well (e.g., piping, masonry materials, precast structures, accessories, filter material, landscaping materials, etc.) - varies, depending on type and amount of projects and tasks performed. Reflects substantial reliance on TAR funds and assumes no loss of TAR funds to cover additional expenses at historical average of about \$10K.

This line item provides for maintenance needs for streetlights that the Town is now responsible for since replacing and taking direct ownership of streetlight fixtures.

Covers rental of specialty equipment used by or to assist PW crews, usually for specific tasks for which the department does not have the equipment/personnel capability. Budget amount contemplates limited use of this provision.

Provides for various supplies, materials, expendable items, and services used in the preventative and corrective maintenance of the Town Hall and Annex (e.g., lumber, hardware, paint, electrical/HVAC/plumbing items, and supplies). Also provides for limited improvements through contractor services. Historic budget amount has not always covered many unexpected maintenance needs, and does not adequately fund carpet cleaning at appropriate intervals.

Provides for various supplies, materials, expendable items, and services used in the preventative and corrective maintenance of the buildings in Highway Garage complex (e.g., lumber, hardware, paint, electrical/HVAC/plumbing items, and supplies). Also provides for limited improvements through contractor services. Historic budget amount has not always covered many unexpected maintenance needs or appropriate improvements.

Provides for various supplies, materials, expendable items, and services used in the preventative and corrective maintenance of the Police Station (e.g., lumber, hardware, paint, electrical/HVAC/plumbing items, and supplies). Also provides for limited improvements through contractor services. Historic budget amount has not always covered many unexpected maintenance needs. Increase reflects inflationary pressures and trends associated with increased facility age-related maintenance.

Provides for various supplies, materials, expendable items, and services used in the preventative and corrective maintenance of the Ledyard Firehouse (e.g., lumber, hardware, paint, electrical/HVAC/plumbing items, and supplies). Also provides for limited improvements through contractor services. Historic budget amount has not always covered many unexpected maintenance needs, and does not adequately fund carpet cleaning at appropriate intervals. Increase reflects inflationary pressures and trends associated with increased facility age-related maintenance.

Provides for various supplies, materials, expendable items, and services used in the preventative and corrective maintenance of the Bill and Gales Ferry Libraries (e.g., lumber, hardware, paint, electrical/HVAC/plumbing items, and supplies). Also provides for limited improvements through contractor services. Historic budget amount has not always covered many unexpected maintenance needs and does not adequately fund carpet cleaning at appropriate intervals. The increase in FY24 reflects absorption of the alarm system costs previously borne by the Library budget.

Provides for various supplies, materials, expendable items, and services used in the preventative and corrective maintenance of the Senior Center (e.g., lumber, hardware, paint, electrical/HVAC/plumbing items, and supplies). Also provides for limited improvements through contractor services. Historic budget amount has not always covered many unexpected maintenance needs, and does not adequately fund carpet cleaning at appropriate intervals.

This was an account added in FY23 to coincide with the conversion of the Fairgrounds to a Town Green, which bears more direct maintenance responsibility for the PW Department. It provides for various supplies, materials, expendable items, and services used for the landscaping needs (e.g., soils, fertilizers, etc.) and structural preventative maintenance needs (e.g., lumber, hardware, paint, electrical/HVAC/plumbing items and supplies). Also provides for limited improvements through contractor services. Decrease reflects trajectory of actual expenses over a few fiscal years.

This account provides funds for the required overtime expenses for PW employee weekend fill-ins.

Provides funds for the contract services for curbside collection and disposal of garbage, recyclables, and bulky waste in accordance with the Curbside Collection Contract. The 6-year contract with Casella expired in FY25.

The budget reflects an anticipated 15% increase over FY25 pricing, with an additional allowance (about \$12,000) for extra charges associated with extra recycling cart service and cart replacements. This line now includes the cost of food waste disposal at about (estimated at \$2,500).

This account provides funds for the tipping (service) fees associated with waste delivered to the Preston Incinerator under the Curbside Collection Contract, for residential and municipal sources, and through commercial collection and disposal within Ledyard. After many years of a stable \$58 rate, SCRRRA has had to reduce its subsidy (i.e., increase the tipping fee charged member towns). Even with a relatively stable volume of waste, there will be a significant additional cost of disposal due to the tipping fee increase. This account reflects a service fee established by SCRRRA for FY26 of \$75.06 (this is the third year of progressive increase, and the greatest increase so far-now more than 29% greater than FY22). Under Town Ordinance, the tipping fees paid by the Town for commercial loads are received back through a backcharge of the commercial haulers.

IMPORTANT NOTE: The prevailing financial conditions under which SCRRRA now functions have changed dramatically, such that SCRRRA is still exploring various scenarios of progressive subsidy reduction. Thus, the Town can expect continued growing increases of the on-budget share of these costs, as we are now seeing. For many years the costs to the Town of waste disposal, recyclables disposal, and other Transfer Station related expenses have been both artificially depressed and stable due to the capacity and decisions of SCRRRA to subsidize these costs.

Provides funds for expenses associated with various operational requirements, such as annual landfill mowing (\$2,500), porta-potty rental (\$1,000), annual permitting fees, etc. Inflationary increase.

Includes hauling and disposal costs for bulky waste and other wastes and other miscellaneous transfer station disposal costs. These costs have been managed carefully, and the Town has realized some savings, but the long-term situation for disposal remains highly uncertain. Costs of disposal could increase dramatically at any time. A marked increase in bulky waste disposal costs over the last several years has put upward pressure on this line item. The latest 2-year contract expires at the end of FY25 and we will be exposed to another increase in pricing for FYs 26 and 27. The increase reflects what may be anticipated.

Library Custodian - 23 hours per week. 3% contractual increase - already at max step.

Library Director. Projected 3% increase.

The library has 3 full-time staff in the supervisor's union (a full-time supervisor for each library and a full-time Youth Services Librarian).

Step increases are factored in. The current contract expires 6/30/25 and will be in negotiation soon.

There are 5 staff in the Town Hall union (also including the Library custodian).

A Library Technician I - Reference works 20 hours per week (equaling 1/2 FTE) in each library as a supervisor when the Assistant Librarian or Director are not there.

The Administrative Assistant works 30 hours (equals .75 FTE) and has many tasks from processing new materials, tracking and ordering all supplies, troubleshooting technology, and handling correspondence.

The Library Technician II - Youth Services works 30 hours (equals .75 FTE) and is responsible for cataloging each item along with assisting our Youth Services Librarian with programming, desk coverage, displays etc.

This line mainly accounts for our seven non-union Library Associates. Library Associates are a key component to our library staffing and have a current starting salary listed just above minimum wage. These Library Associates work hard to provide excellent customer service and deal with a variety of complex tasks during a typical shift. They are our "on call" staffers who have often allowed us to keep the library doors open in the event of a vacation request or an unanticipated absence from a full-time Librarian. This line includes a starting hourly rate of \$16.66 for these employees (2.5% cost of living increase) along with a step scale based on years of employment.

For perspective, I'll include hourly rates from other nearby towns with similar position to our Library Associates.

Groton \$25.45-\$29.25/hr.

Montville \$19.37/hr.

New London \$16.50-\$20.00/hr.

Norwich \$17.00-\$22.00/hr.

Waterford \$20.99-\$27.54/hr.

Ledyard \$16.35-\$17.33/hr.

This line also includes the Sunday Supervisor hourly rate of \$23.25 (a 2.5% cost of living raise).

In addition, the Library Commission is in agreement to restore the Library Page position and request 15 hours per pay period with a minimum wage hourly rate of \$16.35 (2025). This is a great job for a local High School student and will help redistribute workflow in both library buildings. We have added several new collections and responsibilities to our Library Associate's tasks and they no longer have as much time to keep up with the shelving. The last few years our overall circulation has increased more than 10% meaning there are more books that need to be shelved as a result.

This line includes funding so library staff can attend conferences and professional development opportunities to learn about current library trends, network, enhance knowledge, and be informed of future grant options.

Library Director to attend a National Library Conference and one/two staff to attend local Connecticut Library Association Conference.

This line is mainly for our WPCA monthly water fees (anticipating a 3% increase), along with our photocopier rent/imaging fees. It also includes the Bill and Gales Ferry Library annual rent.

No new printers or photocopiers are needed. However, we need to upgrade our Microsoft Office Suite licenses for our public computers. This line includes the estimated cost of 12 perpetual licenses through TechSoup.

Both library buildings' phone lines and faxing services are included here. This account covers two phone lines and one fax line at Bill Library and one phone line and one fax line at Gales Ferry Library.

Operations include supplies (office, building, processing materials, printers, and craft) along with annual dues and an additional \$1,000 over last FY for Children's Library programming.

We currently belong to the LION Consortium. Fees will increase again this year. Belonging to a library consortium is an essential need for our library and community because of the benefit of shared resources, support, and more. I think it is important for us to consider all our options in the state for consortium membership to see if LION is really the best option for Ledyard.

This fee covers Ledyard's share of all the ongoing operating costs incurred by the LION cooperative library automation network. This includes troubleshooting computer issues and other equipment. LION membership benefits include a full online public catalog, a fully integrated automation system, delivery of materials between LION libraries, website hosting, and email accounts for library staff.

In addition to consortium membership, this line includes internet access and fiber maintenance fees (discounted through E-Rate) as well as the Bill Library self-checkout machine software/maintenance, and web protection firewalls/network protection.

In addition to the LION fee this account covers the network cost for both libraries, the annual fiber maintenance cost and part of the delivery fee of materials to our library.

LION Fee	38,500
Bill Network cost	
@ \$145/month	1,740
Annual maintenance	
cost for fiber	300
Gales Ferry network cost (Cable)	
@ \$100/month	1,200
Delivery Service	1,060
(Partial funding from the book account)	

Costs for collection materials have continued to increase and our book vendor contracts are changing. We used to receive a 45% discount on several of our book purchases, but won't receive that same discount moving forward. Back in 2012, Ledyard Library had a \$60,000 budget for collection materials. As libraries continue to evolve, our patrons are now expecting instant access to materials. In addition, there are several areas of our collection that need to be updated to provide the best service and relevant materials to our community. Last year, the state average per capita expenses for library materials was \$5.09, and Ledyard spent \$4.78.

Included in this line is nearly \$7,000 for e-materials that LION purchases on our behalf as part of our membership. This fee for e-materials is required with LION membership.

Hoopla, a popular digital collection, is averaging around \$1,500 per month. We will not be able to afford to pay these monthly invoices if our book budget isn't increased.

NFPA now requires appliances and hard suction to be tested, currently we do not have a means of testing this equipment. Requesting to add hose testing in addition. NFPA requires all fire hose to be tested annually, currently the company test the hose ourselves which is a safety risk and time consuming for the volunteers to complete.

This line item continues to be a challenge due to an aging fleet and mechanical breakdowns. Item increased to reflect growing repair needs.

Chief Officer cell stipend and Active911 departmental subscription.

Increase due to rising costs of software programs and supplies

Volunteer and career uniforms and PPE. Career firefighter uniforms and PPE are contractual items.

This amount is necessary to keep up with new NFPA requirements, fire service best practices, new trends, safety items and providing basic fire, rescue and EMS services to the Town of Ledyard.

Incentive payout to top 20 responding members of the department to encourage call response and training participation.

Compensation for town, department, and committee meetings attendance; daily department business hours to ensure all paperwork and agency requirements are met for budgetary, personnel, laws, rules and regulation are adhered to. Fire Chief is not in the annual incentive program set aside for the volunteers.

\$1500.00 raise in the line item is requested to off set the decline in use of a town vehicle (savings of \$20,000 to the town) and use of a personal vehicle to perform town duties. Calculations from April - December 2024 (time I have served in office) reports roughly \$1718.44 in mileage compensation via the 2024 Federal mileage rate of \$0.68/mile.

OSHA, NFPA, Insurance, and Department of Public Health have required rules and regulations that require us to gain and maintain certain levels of training. This money pays for new volunteer and career personnel to achieve required training to perform at the levels of performance the Town has agreed to provide to the public.  
Requesting funding to shift from having fire personnel testing department hose to certified contractors doing it.

There is an inherent risk to testing hose. Several cases of firefighter injuries due to failed hoses under high pressure have been documented around the local area (including 2024 Groton City Fire Department and 2008 Sub Base Fire Department). A close call was experienced by our own department in 2022. Fortunately, no firefighters were injured.  
Essential for communication operations.

To meet laws, rules and regulations on equipment; OSHA, Dept. of Transportation, NFPA Standards.

To ensure general operation of the fire department is met.

Funds for electrical, water, heat, and other expenses related to keeping town apparatus and equipment operational.

Compliance with DOT and federal highway safety standards on maintenance. Compliance with National Fire Protection Assn. guidelines and standards for emergency vehicle repairs and maintenance.

Increase of \$4000 represent the cost for a required five year major inspection of aerial device (R25) that is due in 2025.

We are required to keep clothing in compliance with the current National Fire Protection Association standards as well as conform/meet with laws, rules, and regulations for OSHA, NFPA, DOT, and more.

Some contractual uniform expenses are a part of this for career personnel.

Fire police have been requested often by the police department and utility agencies to assist with traffic control.

There has been a decline in use of these funds over the past years. A decrease in \$500 was made.

Funds are used for items that don't fall into CIP funds or annual operational funds. This equipment often includes, but is not limited to, larger EMS supplies, HAZMAT metering, and firefighting equipment like ventilation fans, chainsaws, etc.
