

**Town of Ledyard
Highlands W.W.T.F.
Plant Supervisor's Report
Meeting April 28, 2026**

The goal of the plant staff is to efficiently collect and treat the wastewater and to produce the best quality effluent possible while maintaining the equipment and protecting the Town's assets.

- Sand filters are offline for further maintenance requirements.
- Art Enderle (Environmental Consultants) will be here on 4-23-26 for operator training DEEP Class II exam prep.
- There is an issue with septic tanks at 1506 Route 12. Ledge Light has been notified as well as New London County septic service.
- Water service was shut down on 4-21-26 to install a valve at the corner of Meetinghouse and Highland Drive.
- Azuria Company (Insituform) will be giving a presentation to the WPCA on 5-26-26 about relining the sewer pipes in the Ledyard Highlands. This work is essential to allow development of Ledyard Center and extend sewer service.
- Interviews for the Lab Tech/ Operator position will be held on 4-22-26.
- Sent information to chairman from ElectroScan to inspect water line material without digging up service connections in search of lead service lines.
- CTRWWA has offered their services to search for grants for Ledyard sewer pipe relining.

Respectfully,

Stephen W.
