RE: Cashman Dredging & Marine

This letter comes to you in regards to Cashman Dredging & Marine.

Cashman is new to the area at the Amsty plant on Rte 12 in the Gales Ferry section of Ledyard. My company has done several projects for them in the past few months. The personnel that are on site are very knowledgeable and easy to work with. They are reaching out to all local businesses and not national companies, keeping the funding in the local economy.

Please feel free to contact me if there are any questions.

Thank you
Jo-Ellen Fleming
General Manager
