Hi Scott! The Ledyard Little League Board voted to do a scoreboard for the Seniors field at Pfizer Field. We as a League can do the install and electrical with professional licensed people however, we need to bring in a pole and power from Eversource. Is that something P&R could do for us? I think when there was a discussion about getting a pole in with Eversource before, they could do a few options but one we thought would be a great idea would be by the parking lot because that would enable P&R to utilize the panel we will put up for any future power needs for events, etc. Let me know if you can help in any way. It will take us 4-5 weeks to get the scoreboard so we wanted to do all the set up before it arrives so we can just plug and play in time for this upcoming season. Let me know as soon as you can. Thanks!
