**Subject:** Blasting in town

Hello,

My name is Joshua Draper. I recently moved into town with my toddler son. I chose Ledyard because of its family friendly and quiet zoning. I am close to the wonderful school system and excited for my son to attend.

The proposed blasting in the area is concerning to me. The proposed blasting is so close to the school that not only will the noise be disruptive but the health impact to the children is concerning. While I'm sure the company looking to blast will advertise little to no negative side effects from their work, but we all will be impacted in some negative way. Whether it be from sound, air or water pollution.

I ask that the town thinks of its residents and the excellent family environment it has created. Companies will promise us the world but in the end will provide no loyalty or assistance when it affects their revenue. It would be a terrible shame to provide property to a company that is looking to take away from the towns beautiful land.

Thank you, I appreciate your time.
