Subject: Vote for Budget

Dear Town Council Members,

I am very disappointed in the results of the second referendum. The proposed Board of Education budget was not extravagant, I believe every cost was necessary. Ledyard schools have had to pinch pennies in so many places already, Colonels deserve even more than what the budget asked for and I'm very disappointed it was voted down.

If you believe that the budget increase was asking for too much, please go read the detailed report of every thing the board budget was asking for. Without that money, cuts will be placed on a district that is already spread thin.

That comes out of programs that help your kid or a kid you know.

Please consider reinstating the funding that the Board asked for in the original proposal. Remember, this budget not only provides funding for current students, but is also key in building the future of the Ledyard School System.

Keeley Bell
