Subject: last night council meeting

Good morning Roxanne.

Thank you for helping me with the pictures. Great job!

Can you see that each of the councillors get a copy of these words?

To the councillors

Thank you for listening to my experiences with the assessor's and building department representatives. I am hoping that someone can help clarify the value of the collapsed structure and arrange a proper meeting with the building official.

I apologize for my rambling with my history. Only wanted to back up my statement (that I failed to state) that in all my years in business I have never given so much effort and time to produce no results for what is a carpentry 101 project.

I was given no explanation for the valuation for the collapsed structure.

According to the job description for the town building official, he is to provide " expert advice and guidance to property owners, architects, engineers, and contractors navigating Ledyard's land use and building regulations." I have not been accorded this service.

Thank you again,
Kirk Bryson
