Public Hearing - Water Rate Increase

Tuesday, April 23, 2024 **6:00 PM** **Council Chambers - Hybrid**

I. CALL TO ORDER

The Public Hearing Meeting was called to order by Chairman Lynch at 6:00 p.m.

II. PROCEDURE OF THE PUBLIC HEARING

III. CALL OF THE PUBLIC HEARING

IV. PRESENTATION

1. Proposed 5% Water Rate Increase.

Chairman Lynch started the presentation by stating there is a proposed five percent increase to the water rate due to two factors. The first is Groton Utilities will impose a five percent increase to the raw water cost starting on October 1, 2024, the WPCA is unable to absorb these increases. The second factor is that the WPCA never budgeted for contingencies. The Department of Health mandated that all Water Utilities companies check for lead. There are presently eleven unknown services in Ledyard that need to be checked because of lack of documentation. There is no budget in place to pay for the lead testing services. Local towns such as Groton City and New London are receiving grant money to help pay for lead testing. Even though the services in question are believed to be using plastic piping there could still be a small lead insert that connects the meter to the house. If the lead piping is less than 20" it can be pulled and replaced with another material.

V. PUBLIC COMMENTS

Please limit to three minutes.

Eric Treaster, 10 Huntington Way, expressed concerns about the unintended consequences of a rate increase. His first concern is customers who use no water because their house is vacant are charged the same monthly rate as a home with a family of four using 3,000 gallons of water, Mr. Treaster said it doesn't seem quite right. Mr. Treaster said raising the rates of water has unintended consequences such as lowering values of homes or discouraging people from moving into Ledyard. He asked what the checks and balances are for Groton Utilities, can they charge whatever they want? Is there is a mechanism in place when GU raises its rates and Ledyard can't afford it? Ideally Mr. Treaster would like charges to be based only on numbers of gallons used. Chairman Lynch said that the Authority is planning on working on a new rate structure, possibly

next year. Mr. Treaster had two questions, first how much capacity is in the new sewer line coming into Ledyard Center, will it support 100, 200 or 500 units? Secondly, could each unit be individually metered, he believed it would be a much fairer way to charge customers, he would like this idea to be considered.

Kevin Blacker, 11 Church Street, Noank, renter of farmland Shewville Road. Mr. Blacker inquired about the dollar value of water that is dumped each year through flushing. Chairman Lynch said he doesn't have the number but could get it, it is several million gallons of water and it's metered. Flushing is required by the Department of Health. Mr. Blacker recommended finding out the dollar value of the water that is flushed and looking to eliminate waste by engineering the water system. He suggested that the WPCA investigate ways to recuperate the losses, such as selling flushed water as pool water or for farm usage, (especially during drought times). He also suggested that the WPCA look at what assets that aren't being used by the Town that could be sold to raise revenue.

VI. ADJOURNMENT

The Public Hearing Meeting was adjourned at 6:27 p.m.

DISCLAIMER: Although we try to be timely and accurate these are not official records of the Town.

Regular Meeting

Tuesday, April 23, 2024 **6:30 PM** **Council Chambers - Hybrid**

I. CALL TO ORDER

The meeting was called to order by Chairman Lynch at 6:30 p.m.

II. ROLL CALL

Present	Board Member Terry Jones
	Board Member Stanley Juber
	Board Member Monir Tewfik
	Board Member Sharon Wadecki
	Board Member Edmond Lynch
Excused	Alternate Member Jeremy Norris
Non-voting	Alternate Member Tony Capon
	Alternate Member James A. Ball

Sharon Wadecki was present via Zoom.

Also in attendance:
Naomi Rodriguez, Chairman Town Council
Mauricio Duarte, GU General Foreman Water Operations.
Jennifer Kelly Lachmayr, PE BCEE, Senior Vice President/Area Leader New England Arcadis US Inc.
Sarah Lufler, Executive Director of Habitat for Humanity.

III. APPOINTMENT OF ALTERNATES

Not needed.

IV. PLEDGE OF ALLEGIANCE

V. RESIDENTS AND PROPERTY OWNERS

None.

VI. APPROVAL OF MINUTES

1. Motion to APPROVE Regular Meeting Minutes from March 26, 2024, as written.

RESULT: APPROVED AND SO DECLARED
MOVER: Edmond Lynch
SECONDER: Stanley Juber

AYE 5 Jones Juber Tewfik Wadecki Lynch

EXCUSED 1 Norris

VII. COMMUNICATIONS AND CORRESPONDENCE

1. Operations Report.

Chairman Lynch attended a Groton Utilities lead water service survey meeting, and there will be a presentation from their designated contractor later in the meeting.

Chairman Lynch told Mauricio Duarte, General Foreman Water Operations that the bid waiver request not to exceed more than $25,000.00, to Groton Utilities for Ledyard Multi-Use Pathway inspection, and installation of a tapping sleeve valve for one fire hydrant by Groton Utilities' Distribution crew (hydrant to be re-located by others) was approved by the Town Council. Chairman Lynch asked when the hydrants will be removed. Mr. Duarte replied that they are currently waiting for the 5" PVC pipes to arrive, so far only some sitework has been completed. Mr. Duarte expressed a concern that in areas where the contractor will be making cuts to the existing grade, there is a possibility of the water service not meeting the appropriate depth and the possibility that the trail will need to be excavated when doing future tie-ins.

Microbiological and physical water sample results are within CTDPH limits. Work is continuing to reduce THMs in the Gales Ferry and Ledyard Center systems. GU is preparing for the first six-month-set of lead and copper testing in Ledyard Center and Gales Ferry (bottle set-up, notification of customers, etc). Cross connection inspections have been completed for Ledyard and Gales Ferry. GU has been monitoring the Multi Use Trail/Sewer Installation project in Ledyard Center.

RESULT: DISCUSSED

2. Service Correspondence.

None.

3. Aged Reports/Finance.

No surprises.

4. Year to Date Water/Sewer Report.

Nothing stands out other than water usage is down due the abundance of rain.

RESULT: DISCUSSED

5. PSR - Steve Banks.

Chairman Lynch said there was a problem in the Highlands with the pressure relief valve as there is water draining into the valve box where the pressure reducer is. Mr. Duarte said the

problem only occurs when it rains. The pressure relief box is on the property line and he is working with the property owner to put a swell around it which should fix the issue.

Praestol 133 is not an effective polymer for the facility. Atlantic Coast Polymer ACP 67B is the best product to use. Unfortunately, due to several industry factors, it is expensive and getting more so every day. Steve Banks, WPCA Supervisor, will continue to explore other options. Flows are steadily decreasing from wet weather in December and January. The WPCA is waiting for revised quote from Weston& Sampson for phase II. This also includes project oversight. Low alkalinity/PH in basins is being addressed. There are issues with Stenner chemical pump delivering potassium hydroxide to basins. These issues are being troubleshooted.

RESULT: DISCUSSED

6. DEEP Water/Sewer Grant Requests for Proposal.

Chairman Lynch said that DEEP is looking for water/sewer grant request proposals. He asked if the Town has a dedicated grant writer. Mr. Juber said that historically it was the town Planner who wrote the grants for the WPCA.

RESULT: DISCUSSED

VIII. OLD BUSINESS

1. Motion to RECOMMEND to the Town Council approval of a five percent water rate increase effective July 1, 2024, as recommended and contained in the water and sewer rate table attached to the WPCA legal notice dated April 11, 2024, in accordance with Ordinance #400-001 "An Ordinance Establishing a Water Pollution Control Authority".

No further discussion.

RESULT: APPROVED AND SO DECLARED
MOVER: Edmond Lynch
SECONDER: Stanley Juber

AYE 5 Jones Juber Tewfik Wadecki Lynch

EXCUSED 1 Norris

2. Review of Trail/Sewer line bids continued.

Received an update from the engineering consultants for phase II. There is a significant reduction in the amount of engineering because the line will be going over an existing line in the street. The WPCA recommends that Mayor Fred Allyn III sign the amendment, which the Mayor has the original copy of.

RESULT: DISCUSSED

3. Review Lead Survey Study.
Presentation.

Jennifer Kelly Lachmayr, PE BCEE, Senior Vice President/Area Leader New England Arcadis US Inc presented an Overview of LCRR Requirements and Lead Service Line replacement program.

Ms. Lachmayr said she was presenting at the request of Groton Utilities and thanked the Authority for having her. Ms. Lachmayr said she is the Program Director of Arcadis US Inc and has been in the business for 35 years. Arcadis works throughout New England on lead and copper programs.

The WPCA is required to submit a lead service line inventory and a replacement plan by October 16, 2024. She added that it is allowable to have unknowns in the inventory and the WPCA would have a couple of years to "wrap it up". Mr. Jones asked if the legislation was State or Federal, Ms. Lachmayr answered Federal although each State promulgates the rules themselves. For example, the Connecticut final date of inclusion is 1989 vs. 1986 for the Federal date. The State may add its own stricter requirements.

Quick overview of Ledyard system:
1,141 unknown service lines.
A large number of connections will require investigations.

In Ledyard the service lines are partially owned by both the customer and the Utility but nonetheless it is the WPCA's responsibility to provide information on the inventory regarding the service line material.

Chairman Lynch expressed concern that in the past some customers refuse to let the Utility inspector into their homes. Ms. Lachmayr said that what the State will evaluate is a percentage of the system, not necessarily every single connection. Probabilistic models can be used to determine the unknown materials in the system. She added that if lead is found and the owner is refusing replacement, the Utility is required to document three attempts to perform the replacement.

Ms. Lachmayr offered advice on how to explain to customers why the survey is being conducted. She said it is important to start out by explaining that the water is high quality drinking water, and that compliance was maintained with established lead and copper limits within the water system. Secondly, the lead inventory is being performed as a requirement of the Environmental Protection Agency and the State of Connecticut. End the explanation by stating that the WPCA is committed to providing safe drinking water to all residents and works hard to keep that commitment.

The Department of Health has a template that is required to be completed by October 16, 2024.

An overview of a few of their requirements:
A galvanized service line downstream of a lead gooseneck will require replacement.

Anything with lead will need replacement.

If lead is found, the customer needs to be told within 24 hours.

Once a lead replacement is complete the customer needs to be provided with the required steps

to flush the lines.

Make the inventory public facing. Starting on October 16, 2024, access to the inventory must be provided. This can be as simple as a spreadsheet but it must be searchable by the customer address. Often Towns will create a page on their website which will allow access to the self-reporting forms, show customers how to test their service line, contains frequently asked questions/answers amongst other important program information.

Mailings can be used but with the expectation that only approximately 10% of customers will reply making field-work necessary.

Chairman Lynch asked for clarification that a filter only needs to be on the drinking water. Ms. Lachmayr confirmed.

Mr. Ball asked what the time frame is for paying for the lead service program, it was answered at least three years under the LCRR and if the LCRI goes into effect then it would be seven years.

Ms. Lachmayr offered to work with Chairman Lynch to fill out the State application for lead funding.

Ms. Lachmayr asked if the WPCA was interconnected with Mashantucket Pequot, Chairman Lynch answered no.

Chairman Lynch thanked Ms. Lachmayr for her time.

RESULT: DISCUSSED

4. Final Water Rate Report Review.

Cost of service Report. Mr. Jones asked what does the Cost of Service charge of 16.73 for unmetered represent? What about a 2" Fire Sprinkler for $9.53, is that the only charge this customer will receive? Chairman Lynch said he believes the chart is showing what the rate structure is currently.

Discussion of the rate structure resulted in a few suggestions. One idea is to reduce the minimum water from 3,333 gallons to 2,000 gallons per month. Another idea would be to eliminate the gallon minimum and to charge for the first gallon plus used.

Mr. Ball said it would be helpful to know how much flushing is done by season and what fraction is of the total usage. Chairman Lynch asked Mr. Duarte to get that information. Mr. Twefik said that flushing is performed to maintain the chemistry of the water and the integrity of the pipes, therefore flushing is necessary.

The Authority would like to see the flushed water used in something like pools rather than go into the ground. This would be better for the environment.

Mr. Ball requested a spreadsheet to include commercial vs. residential charges and addresses for apartments and multiple use. Chairman Lynch will request this information.

RESULT: DISCUSSED

5. Review of Groton Utilities Data on New Rate Structure Proposal.

6. Any Other Old Business to come before the Authority.

None.

IX. NEW BUSINESS

1. Habitat for Humanity Proposal.

Before introducing Sarah Lufler, Executive Director of Habitat for Humanity Chairman Lynch explained that the proposed site is on Colby Drive and is not a part of SCWA region of service, therefore the WPCA will serve Habitat water and sewer. He added that it is his understanding that this would be the largest proposed habitat for Humanity development in the State of Connecticut, which Ms. Lufler confirmed.

Sarah Lufler, Executive Director of Habitat for Humanity presented an affordable/housing conceptual plan. She started by saying that Habitat owns approximately 13 acres between Colby Drive and Colonel Ledyard Highway. It was donated many years ago by the Simon Konover Company. Habitat has been working on a conceptual plan that would propose building 35-40 homes on Colby Drive which would be sold with affordable mortgages. There would be combinations of 2, 3 and 4 bedrooms, both single and multi-family homes. Ms. Lufler said to push the plan into motion she is seeking the WPCA's approval to proceed with the conceptual development. Ms. Lufler asked for comments from the Commissioners. Chairman Lynch said the WPCA definitely has the water capacity and he doesn't expect the sewer to be very impactful. Mr. Juber asked about a pump station, Ms. Lufler said the plan would be to put a pump station at the bend of the road. Ms. Lufler asked about fire hydrants, Chairman Lynch said to budget for approximately four hydrants but the number of hydrants would be dictated by the Fire Marshal. Ms. Lufler said that although affordable apartments and rentals are wonderful, there is something special about home ownership. Chairman Lynch said that towards the end of the approval process with Planning and Zoning Habitat will need to sign a water main extension agreement with the WPCA. Mr. Capon asked what the time frame is. Ms. Lufler said that 40% of the planning will need to be completed by October 2024. The plan is to build the houses in phases with about 4-5 phases with 6-8 houses in each phase. Mr. Juber commented that it could be 10 or more years of work, Ms. Lufler agreed. Chairman Lynch thanked Ms. Lufler for her time and wished her luck on the venture.

RESULT: DISCUSSED

2. Any Other New Business to come before the Authority.

None.

X. ADJOURNMENT

Motion to ADJOURN the Regular Meeting at 8:18

RESULT: APPROVED AND SO DECLARED

GROTON UTILITIES

Subject: **Ledyard Water Systems**
Monthly Report: April 2024

To: Ed Lynch, WPCA Chairman
cc: Joseph Pratt, Manager Water & Wastewater

From: Mauricio Duarte

Date: May 20, 2024

Water Operations and Maintenance Monthly Report and Updates for April 2024.

Operations:

- Daily rounds of all systems
- Operation and maintenance
- Manage water storage tanks.

Laboratory:

- Distribution system samples collected and analyzed per CTDPH schedule (microbiological & physical analyses). All results met CTDPH standards.

- Submitted results of monthly microbiological & physical analyses to CTDPH via CMDP (Compliance Monitoring Data Portal) as required.

- Preparing for 2023 CCR for Ledyard Center & Gales Ferry.

- We (the GU Water Division team) continue our work to reduce THMs in the Gales Ferry and Ledyard Center systems.

- Q2 sampling for THMs/HAA5s completed in March for Ledyard Center, and we are in compliance. Q2 Gales Ferry THM/HAA5 samples collected in April and sent out to be analyzed.

- Ledyard Center and Gales Ferry sampling for lead and copper conducted for first six-month period of 2024. Ledyard Center results are in compliance, and Gales Ferry results should be coming back soon.

Distribution:

- Groton Utilities (GU) continue to monitor the Ledyard Multi-Use Bike Bath. One fire hydrant has been removed near the library. GU continues to review records in efforts to submit the required inventory to DPH by October 2024.

- Gate box repairs were performed on misalign boxes located on Colonel Ledyard Highway.

- Monthly repairs of miscellaneous meter and ERT boxes, completed trouble sheets for Ledyard and Gales Ferry.

- Repaired a curb box at Blacksmith Drive and completed paving all water main break and service leak trenches.

- Responded to an after-hours call regarding a fire hydrant struck by a vehicle, on Shewville Road, the hydrant was replaced as it was irreparable.

Report title:
YEAR-TO-DATE BUDGET REPORT

Includes accounts exceeding 0% of budget.
Print totals only: N
Year/Period: 2024/10
Print Full or Short description: S
Print MTD Version: N
Print full GL account: N
Format type: 1
Roll projects to object: N
Double space: N
Carry forward code: 1
Suppress zero bal accts: Y
Include requisition amount: N
Print Revenues-Version headings: N
Print revenue as credit: Y
Print revenue budgets as zero: N
Include Fund Balance: N
Print journal detail: N
From Yr/Per: 2023/ 1
To Yr/Per: 2023/13
Include budget entries: Y
Incl encumb/liq entries: Y
Sort by JE # or PO #: J
Detail format option: 1
Include additional JE comments: N
Multiyear view: D
Amounts/totals exceed 999 million dollars: N

Town of Ledyard
Highlands W.W.T.F.
Plant Supervisor's Report
Meeting Date: May 28, 2024

The goal of the plant staff is to efficiently collect and treat the wastewater and to produce the best quality effluent possible while maintaining the equipment and protecting the Town's assets.

- **After further testing with Polymer we have decided to change to Praestol 133 from Univar on a trial basis. We bought (1) 55-gallon drum and will work with that and see how it performs. Delivery is expected the week of 5-20-24.**

- **Flows are steadily decreasing and we were able to place the ABW filters back on line.**

- **Portable trailer mounted 70 kW generator $60,000, design/installation on Rotary Drum Thickener panel $30,000, and HACH DR 3900 spectrophotometer $6900.00 are other items we need if there is any ARPA $$ remaining.**

- **Received revised quote from Weston& Sampson for phase II. This also includes project oversight. Waiting on Gerber price for next phase from LHS to Pennywise.**

- **GU inquired about rain run-off into pressure reducing chamber at 49 Highland Drive. I notified Public Works and Building departments of this issue. G.U. will take care of this issue.**

- **Started looking for alternative pricing for potassium hydroxide. Univar costs have risen significantly over the last few years. This chemical addition became necessary when we changed from the Loftus Aquifer to G.U. surface water several years ago.**

- **Changed out all parts on Stenner Chemical pump per manufacturers technical support direction. Will monitor pump for performance.**

- **Gerber is moving along on the sewer force main from Ledyard Center to LHS. This work included some blasting on Colonel Ledyard Highway.**

- **DEEP training was held on 5-16-24 for eMOR and eNAR reporting changes.**

Respectfully,

Stephen W. Banks
Plant Supervisor

catalyst05@comcast.net

Eric

Wed 5/22/2024 4:53 PM

Eric - the registered flow rate with the DPH is 170,000 gallons per day, however, due to storm water incursion and resident sump pumps, the flow rate going through the plant went up to 500,000 gallons per day. Our biggest rate limiting process and the SBR's (Single Batch Reactors) that digest the waste solids and reduce nitrites. So, we do have a variable rate that we will be addressing by shutting down illegal sump pumps and discovery of storm runoff incursion. We have in the past reduced both sump and storm water incursion but obviously we need to do more. The water we discharge into percolation ponds is of drinking water quality and can be discharged as a stream when the ponds are full. I really have no comment on high rises or density.

Hope this helps!

Ed Lynch, PE WPCA Chairman

Subject: Question Regarding the Capacity of the New Sewer Line That Will Service Ledyard Center

Ed,

During a recent WPCA meeting, I asked if anyone knew the capacity of the new sewer line being installed to Ledyard Center. I heard that it might be 150,000 gallons per day, but would like to confirm the number. If unknown, who should I contact who does know? Is the capacity number in a contract, and if yes, who would have a copy that I could view.

My concern has to do with the fact that our new zoning regulations, for practical purposes, impose no density constraints, no constraints on the number of units per acre, and no minimum unit size constraints on new multifamily developments in Ledyard center (MFDD) and Gales Ferry (GFDD) – with the exception of height - which imposes a 65' maximum height limit (six stories if a flat roof). The only significant constraint on density is the amount of available water and sewage capacity.

For example, if enough water and sewer are available, the new massive multi-hundred unit apartment complex towering above the Super 8 motel that is under construction in Groton (near I95) is allowed in Ledyard under our existing regulations. (See attached photos.)

IMO, such massive structures are inappropriate in our Town. (I could be in the minority on this

subject - some believe the larger and denser a multifamily complex is in Ledyard, the better, because of the need for more affordable housing.)

I appreciate your help.

Thanks,

Eric

AMENDMENT NO. 2
TO
AGREEMENT FOR ENGINEERING SERVICES
BY AND BETWEEN

TOWN OF LEDYARD, CONNECTICUT
AND
WESTON & SAMPSON ENGINEERS, INC.
FOR

LEDYARD CENTER SEWER (BID #2021-03)

The AGREEMENT for Ledyard Center Sewer (Bid #2021-03) made on the April 22, 2021 by and between the Town of Ledyard, Connecticut acting through its Mayor, hereinafter called the OWNER, and Weston & Sampson Engineers, Inc., with offices at 712 Brook Street, Suite 103, Rocky Hill, Connecticut, hereinafter called the ENGINEER is hereby amended in accordance with the provisions of said AGREEMENT.

The engineering services in this task amendment consists of the design of a low-pressure sewer extension from the high school to Pennywise Lane, as requested by the OWNER. This amendment is issued to incorporate the following changes:

ARTICLE 2 - SERVICES OF THE ENGINEER is hereby amended as follows:

Immediately following Article 2.09, add the following new subsections to the contract:

2.10. Wetland Delineation (Sewer to Pennywise)

1. Wetland limits will be identified and flagged for used in determining work within the upland review area areas. Based on preliminary review, there is a large freshwater wetland area adjacent to the Gallop Hill Road near the intersection of Pennywise Lane.
2. Specifically, the freshwater wetlands and watercourses will be delineated, and soil series will be identified for the limits identified above. The wetlands will be identified by Connecticut criteria. USACOE (Army Corps) criteria will be evaluated as well. "Soil Taxonomy" (USDA Handbook 436, Rev 1999), NRCS Web Soil Survey and available maps will be used. Soil borings will be dug with a soil auger to a depth of 2 to 4 feet to conduct this study.
3. A field map showing approximate wetland flag locations will be prepared. A Wetlands Report will not be prepared for this project because construction disturbances will be located within the existing paved roadway.

2.11. Soil Borings (Sewer to Pennywise)

1. None anticipated based on construction of the new low pressure sewer alongside the existing pipe alignment.

2.12. Surveying (Sewer to Pennywise)

Supplement existing planimetric from previous record drawings along Gallup Hill Road.

1. The survey will record accessible utilities and current existing feature conditions. The existing condition survey within the limits identified above will locate the following.
2. Temporary benchmarks will be set at approximately 500 feet intervals on the site and will be included on the plan.
3. Underground utilities with surficial structures (i.e., hydrants, manholes, grates, catch basins, hand holes, valve boxes, utility poles, transformers, and risers) for water, gas, sewer, drainage, electrical, telephone within the survey limits.
4. Measured inverts and pipe sizes will be recorded for storm and sanitary structures where possible.
5. Field survey presumptions regarding the scope and fee proposed herein include:
    a. ENGINEER reserves the right to negotiate extra work fees for effort that may be required to confirm specifics about boundary, easements, rights-of-way, elevation, or sub surface utilities that may arise from the client or client's review of the initial map produced under the initial defined scope of services.
    b. Real-time kinetic (RTK) GPS methods will be available to establish field control.
    c. Traffic control (if necessary) to obtain invert data will be provided by the Town of Ledyard
    d. Water, storm, and sanitary as-built mapping will be provided by OWNER.

2.13. Sewer Route Design (Sewer to Pennywise)

1. The design will extend a 5-inch HDPE low pressure sewer along Gallup Hill Road (adjacent to the existing sewer pipe) from the high school to gravity sewers on Pennywise Lane. The existing clean-out manholes will be replaced to accommodate the new pipe. Design will be incorporated onto the record drawings of the high school force main extension. Construction documents will be prepared as a change order to the multi-use pathway construction project.
2. Field Visit – Conduct a field visit to inspect the condition of the existing site features, review project area and potential utility conflicts, and prepare a photo log (as needed).
3. Existing Data – Review existing data provided by the municipality and the utilities, including street line mapping, utility locations, construction and as-built plans of the roadway and existing sewer force main.
4. Odor Control – Design an odor control system to be installed in the existing water booster pump building across from Pennywise Lane which is currently abandoned. A 120 volt power source is anticipated to be readily available within the building.
5. Preliminary Design Plans – Prepare preliminary plans to consist of:
    a. Cover Sheet (1 sheet)
    b. Sedimentation and Erosion Control Plan (1 sheet)
    c. Skid-Mounted Odor Control System (1 sheet)
    d. Plan and Profiles (2 sheets)

6. Preliminary Design Submission – Assemble and submit all the plans and estimates generated during the Preliminary Design phase.
7. Resolve Preliminary Design Comments – Attend one preliminary design review meeting to discuss comments and resolve any questions or differences of opinions that arise. Identify permit requirements and make initial contact.
8. Coordination For Property Rights – None anticipated
9. Drainage Analysis – None anticipated.
10. Public Information Meeting – None anticipated.
11. Quantity Estimate and Cost Estimate – Prepare an estimate of the quantities of all major items of construction. Develop an estimate of probable construction cost for the project based on the estimated quantities and unit prices.
12. Technical Specifications – Reuse existing technical specifications that have been incorporated into the multiuse pathway construction project. A technical specification will be prepared for the odor control system.
13. Final Design for Review – Assemble and submit the drawings, estimate, and technical specifications generated during final design.
14. Final Submission – Package and submit certified plans, estimate, and technical specifications to the for administrative review.
15. CTDOT District Coordination – None anticipated.

2.14. Wetland Crossing Design (Sewer to Pennywise)

1. Project construction within wetlands not anticipated based on Town's new pipe alignment.

2.15. Groton Utility Review (Sewer to Pennywise)

1. Submit progress design plans to utilities for review. Schedule and facilitate up to three on-site or virtual utility meetings.
2. Identify potential conflicts and proposed test pit locations, if any, to be conducted by the contractor during construction.
3. Address detailed comments including coordination meetings with the utility, further field investigations, redesign efforts, and revisions to contract documents. This budget does not include procuring excavation services for test pits at water main & hydrant lateral crossings.

2.16. Permitting (Sewer to Pennywise)

1. Prepare and submit local inland wetland permit and prepare demonstration material and present project at up to two in-person commission meetings to present the project. The proposed pipe alignment along Gallop Hill Road (under the existing paved roadway) to Pennywise will be within the upland review are of adjacent wetlands.
2. Coordinate with CTDEEP Wildlife. Prepare and provide to CTDEEP to review endangered species within the project site. Correspondence with CTDEEP to include recommendations. This project does not appear to be located within an area of endangered species as of February 2024.
3. Town/State Wetland Application Fees would be paid for directly by the Town.

ARTICLE 4 - TIME OF PROJECT is hereby amended as follows:

Append Article 4.1 to add the following:

The ENGINEER agrees to start the work of Task 2.10 thru 2.16 within 14 calendar days of authorization and complete the work within 120 calendar days thereafter (weather permitting). It is understood that the Town would like the contractor of the Multi-Use Pathway (MUP) to construct this low pressure sewer extension before the MUP project is completed.

ARTICLE 5 - PAYMENTS TO THE ENGINEER is hereby amended as follows:

A. Replace Table 5.1 with the following new Table 5.1:

Table 5.1

TASK	DESCRIPTION		FEE TYPE	FEE
2.01	*High School Presser Sewer Capacity*		*Lump Sum*	*$6,700*
2.02	*Ledyard Town Center Planning Report*		*Lump Sum*	*$21,000*
2.03	*Multi-Use Walking Path Design Change*		*Lump Sum*	*$6,800*
2.04	*Geotechnical Rock Investigation*		*Lump Sum*	*$37,100*
2.05	*Supplemental Survey at High School*		*Lump Sum*	*$10,600*
2.06	*Investigate Route for Phase 2 Sewer*		*Lump Sum*	*$8,800*
2.07	*Retaining Wall Design for Sewer Alignment*		*Lump Sum*	*$48,300*
2.08	*Coordination for Property Rights*		*Lump Sum*	*$4,400*
2.09	*Coordination with Utilities*		*Lump Sum*	*$3,700*
2.10	Wetland Delineation	(Sewer to Pennywise)	Lump Sum	$17,200
2.11	Soil Borings	(Sewer to Pennywise)	Lump Sum	$0
2.12	Surveying	(Sewer to Pennywise)	Lump Sum	$28,000
