Subject: regarding the many differing applications from Cashman

Dear Planner,

I am again writing to register my absolute opposition to any of the Cashman proposals as what they are trying to ram down the throats of the people in Gales Ferry Only is not the place for their proposals due to its location near houses, schools, lack of roads for the traffic, churches, fire houses, etc. The first application was for dredging and putting it on the property. Now it is tearing down a mountain for ten years causing untold results of air quality that no one can deny. What will the next proposal be if this one is denied. Please consider the Gales Ferry area residents as this only affects Ledyard only with additional income in the coffers.

Thanks for your consideration and I hope it is in the welfare and safety of Gales Ferry and travelers through our area.
