Dear Council Members and Economic Development Committee Members,

I have reviewed Deborah Edwards' letter regarding the bid waiver granted to Goman + York for the Route 12 Corridor study, following their report to P&Z on the Quarry application by GFI. The concerns outlined in her letter resonate with myself and many residents across our town.

The questions and issues Ms. Edwards raised deserve careful consideration and should be thoroughly addressed before any further engagement with Goman + York is pursued. Transparency and accountability in this matter are crucial to maintaining public trust and ensuring that the town's best interests are prioritized.

Thank you for your attention to this matter. I strongly urge you to provide comprehensive answers to the concerns raised before you by Ms. Edwards and others before moving forward.

Respectfully,  
Lee Ann Berry
