Subject: Please be advised

Just to voice my opinion. Please be advised:

Your responsibility is to the residents of Ledyard, not the Republi-clown party. You work for all of us, as the saying goes.

Please DO NOT support or encourage reductions to Ledyard budgets or services by the criminals in Washington DC - Trump & Musk, to name but two. Or by minions in Hartford, now or in the future.

That includes reductions to Social Security, Medicare and Medicaid benefits. In fact, it includes actively fighting against reductions to those sources of income - which may or may not represent financial stability for Ledyard residents. And which may or may not happen serrupticiously/deceitfully by the criminals in Washington DC.

I have opinions on other political topics, but will save them for another time. We do not have to agree on everything; however, I feel this needs to be said now.

I am a citizen, a resident, a taxpayer and a voter in Ledyard. Thank you for your attention.

Warren E Stedman
