Subject: Facebook Page

4/28/26

To the Ledyard Town Council:

I would like to propose an official Ledyard Town Council Facebook page.

I know that residents can email council members through the website, but that doesn't lend itself to any type of group discussion.

And, yes, I know that residents can come to Council meetings and have their 3 minutes.

But many residents find this time-consuming and not easy. In this age of technology, most everyone uses Facebook on a daily basis.

I see a Facebook page as a means of really hearing from the community. As you know Ledyard Life has appeared on Facebook and residents are going to this unofficial site to give their opinions.

We need an official Facebook page that is sanctioned and run by the Town Council.

I realize that comments on this site would not be put into the official record, but we could have a disclaimer and send residents with their concerns or suggestions directly to towncouncil@ledyardct.org.

Looking at the Ledyard website, it is difficult to find our email address. You have to go through three pages to get there. I think that many residents may not even know how to contact the Council.

Thank you for considering this.
