Subject: Budget

Councilors,

Thank you for your hard work. I understand the budget voted on was the lowest it could possibly be. As a teacher, I would like to think this town supports educators. Please don't make any reductions to the BOE budget. We are the lowest in the county and in the bottom 10% of the state. Actions speak louder than words and we need a district we can be proud of with a well funded school district.
