Attachments: Ledyard Roofs - Old Republic Extension endorsement to 12.31.24.pdf

Hi Kristen,

Looks like we got it in this afternoon. Attached is the endorsement. We'll be sending out the invoice this week.

The reason for the extension is due to Gales Ferry roof taking longer to complete so that's where I would put all the dollars for the invoice. However you can split it up internally however you see fit.

Thanks,

Connecticut Interlocal Risk Management Agency

Hi Kristen,

We have not received the endorsement or invoice yet. It can take about a month to get this from the builders risk carrier. I have followed up though.

Thanks,

Connecticut Interlocal Risk Management Agency

Good afternoon Kristin,

I wanted to follow up on this request as the Permanent Municipal Building Committee meets on Monday, October 7th to approve invoices.

Best,
Kristen

Good morning Kristin,

When you provide the invoice, can you once again provide a back-up letter allocating the \$1250 between each project.

Kind Regards,
Kristen

Of course. Would you like to bind the builder risk extension to 12/31/24 for a cost of \$1,250?

No. But when finished you should review your buildings values for these schools and make sure they are showing an accurate replacement cost after these updates. And if you are required to insure the solar panels once they are in place you'll want to increase your building values by that amount as well. There would be an additional premium to increase the building values. See page 11 of your attached policy for what these buildings are currently insured at. These values were considered to be 100% insured to value prior to any renovations made during this project.

Let me know if you have any questions.

Thank you Kristin. Will there also be an increased cost to our CIRMA Insurance premium?

Kristen

Hi Kristen,

Sorry I didn't have this for you yesterday but we got the response this morning.

Old Republic will extend the certificate to 12/31/24 for additional premium of \$1,250. The two roofs that are almost done will fall from cover once completed.

Let me know if I should bind this extension.

Thanks,

Connecticut Interlocal Risk Management Agency

Hi Kristen,

I received your VM. I'm out OOO today but I'll reach out to see if we've heard back from the carrier on this extension. I think the cost could vary because it really depends how they plan to handle the fact that there will be no work being done for a good six months. I've never ran into this situation before.

I'm not sure if I'll get a response today though.

Thanks,

Connecticut Interlocal Risk Management Agency
