**Importance:** High

Dear Ledyard Planning and Zoning Commission,

We are writing to strongly oppose the application by Cashman/GFI for a quarry in Gales Ferry.

We have lived in Gales Ferry for almost 40 years. We have raised our children here and have retired here. We have always been very happy with the quality of life in Ledyard/Gales Ferry. We now feel that this quality of life is in jeopardy with the application by Cashman/GFI for a quarry in our town. We believe that if this application is approved, our health and safety and those of the residents in our town, current and future, is at risk. It has the serious potential to negatively impact our property values, the desire of people to move to town and our ability to live without serious health risks, among other issues. We are all for an increase to the tax base in town, but not for something like this. In addition, the damage to the area surrounding an important historical site, Mt. Decatur, and potentially the site itself, is unacceptable. We strongly urge you to reject this application and preserve the health, safety and way of life of our town.

Sincerely,

*Janine and Greg Dunn*
