Ledyard Zoning and Planning Commissioners Liz Burdick, Ledyard Director Land Use and Planning Ledyard CT

Dear Commissioners and Ms Burdick,

I am respectfully writing in strong opposition to the Cashman/GFI proposed implementation of a quarry in the middle of our town, Gales Ferry.

My specific concerns are:

- 1-The Fine dust particles produced by the blasting and rock crushing at the proposed quarry in relation to the schools in close proximity and the residents of Gales Ferry. The long term health/Lung issues has to be considered.
- 2- Blasting- the effect this will have on the wells in the quarry area and foundations that could be at risk..
- 3- Noise factor...the blasting and rock crushing will create a lot of noise for years to come.
- 4-Increased truck traffic to route 12, which has already seen a increase in traffic.
- 5- The forever change in the “quaint vibe” of Gales Ferry that caused a lot of us to buy into this town 43 years ago.
- 6- The Real Estate market will take a huge hit with decrease in housing prices in Gales Ferry. The Gales Ferry schools, which for some are a big factor in buying in our town will now have concerns of future health /lung issues for their children.

I am sure if I had a young family and knew what I now know about this project, I would never buy here for fear of the harm to my children.

Our community will be forever changed with this project, and not for the good!

Thankyou for your time!  
Kathleen Moore
