Good morning Dr. Parad-
Happy to hear from you.
Let me know how I may assist.
Thanks
Setu

Dr. Vora,

We are trying to incorporate the principals of community building and equity through the primary care for all Americans framework. Ashtabula, OH was able to start by ensuring all town employees had access to a primary care physician, and thus it saved 15-20% of total health care costs by reducing emergency visits and preventive measures. I'll attach a policy statement highlighting the importance of primary care and an equitable approach.

aafp.org

Here is a link to our most recent Town Council meeting where we had a guest speaker, Dr. Michael Fine, discuss strategies for incorporating this in our local community. You can skip ahead to about 17:30 to watch and it's less than 15 minutes long.

granicus.com

We have some ambitious ideas, but I think it's something we can do. I look forward to hearing your ideas about it and how we can learn from and partner with the MPTN on this!

Thank you for circling back,
Adrienne
