Be it ordained by the Town Council of the Town of Ledyard

Section 1. Purpose

It is hereby declared to be in the best interests of the public safety, convenience and welfare of the Town to regulate and place restrictions on the parking of vehicles and other activities in Town rights-of-way within the control and limits of said Town, in general and during periods of snow emergencies, so as to preserve proper material condition of roads and rights-of-way and to not impede the transportation and movement of food, fuel, medical care, fire, health, police protection and other vital facilities of the Town.

Section 2. Definitions

For the purpose of this Ordinance, the following definitions shall apply:

a. The words "vehicle" shall be defined as in Connecticut Statutes Section 14-1(102).

b. The words "parked vehicle" shall be defined as in Connecticut General Statutes Section 14-1(66).

c. The word "street" shall mean any public highway, road or street in the Town of Ledyard.

d. The words "snow emergency" is hereby defined to be a period of time as forecast by a contracted weather service or the United states Weather Bureau, during which period vehicular and/or pedestrian traffic is expected to be hazardous or congested due to the elements, and during which period the parking of vehicles could hinder, delay or obstruct the safe flow of such traffic and/or the proper cleaning, clearing and making safe of the public highways of the Town.

e. For the purpose of this Ordinance "commercial or industrial vehicle" means any vehicle the principal use of which is the transport of commodities, merchandise, produce, freight, and any vehicle used primarily in construction, industry, including but not limited to, bulldozers, backhoes, tractors, tow trucks, dump trucks, tractor trailers (cab and/or trailer), or trucks fitted with cranes, air compressors, welders, tanks or similar equipment. "Commercial or industrial vehicle" also includes nonmotorized dumpsters, storage units, open or utility trailers greater than six (6) feet in length and height, and tool lockers; taxicabs, limousines, and/or any passenger vehicle that is greater than eight (8) feet in height marked with a sign, letters, or emblem advertising a commercial enterprise.

Section 3. General Restrictions

a. No person, firm or corporation shall place any fixed obstruction, or object or drain any water or other substance, within, under, upon or over any Town road or right of way without the written permission of the Director of Public Works.

b. In the case of clearing and handling leaves from and in proximity to private properties, no person, firm or corporation shall place or leave any leaves in the roadway or permanently place leaves on Town property. Residents who contract out leaf removal services at their property shall be liable also for violations of this provision of the party they hire.

c. In the case of removing snow from private driveways and properties, no person, firm or corporation shall move snow across or leave any snow in the roadway. Residents who contract out snow removal at their property shall be liable also for violations of this provision of the party they hire.

d. The Director of Public Works may remove or alter any such obstruction or drain, and the expense incurred by the Director in such removal or alteration shall be paid by the person, firm or corporation placing such obstruction or drain; provided, however, at the discretion of the Director of Public Works, any fixed obstruction or drain made or placed without a permit, or in violation of provisions of a permit shall be removed or altered by the person, firm or corporation making or placing the same within thirty (30) days from the date when said Director sends by registered or certified mail, postage prepaid, a notice to such person firm or corporation ordering such removal or alteration.

Section 4. Construction Regulations

a. No person shall construct a new driveway or relocate an existing driveway leading from private property to a town street or conduct work (excepting lawn or grounds maintenance) in a town right-of-way (ROW) area, until a permit has been obtained from the Director of Public Works or his agent. Plans fully depicting the proposed driveway location and or work in town ROW area shall be submitted for review and approval prior to commencing work.

b. In determining whether to issue a permit, the Director of Public Works shall give due consideration to the effect of the proposed approach upon public safety, sightline and drainage needs.

c. For driveways, all paving, drainage pipes, culverts, headwalls, catch basins, or ditches deemed necessary by the Director of Public Works or his agent must be installed at the owner's expense. The construction shall meet the requirements of the Road Ordinance, unless varied with the written permission of the Director of Public Works. For other work in town ROW areas, construction shall be conducted in accordance with the approved plans. As applicable, work shall meet the specifications of the Road Ordinance.

d. The work shall be completed before a Certificate of Occupancy (CO) and a Certificate of Use and Compliance (CC), when applicable, are issued. If extenuating circumstances prevail, as deemed by the Director of Public Works, that prevent completion of work by the time all other CO and/or CC conditions are met, and unless waived by the Director of Public Works, the applicant shall deposit with the Town Treasurer security in the form of cash, in such amount as may be required by the Director of Public Works sufficient to cover the satisfactory completion of all work, including work required to repair the town street or ROW area. The security shall not be less than $1,000.

e. For work not involving a CO or CC, the applicant shall deposit with the Town Treasurer security in the form of cash, in such amount as may be required by the Director of Public Works sufficient to cover the satisfactory completion of all work, including work required to repair the town street or ROW area.

f. If work governed by this ordinance is not completed within twelve (12) months of approval, the Town may utilize all or any necessary portion of the posted security to effect satisfactory completion.

g. The holder of this permit shall be responsible for any damage done to the town street or ROW area in the completion of said work.

Section 5. Declaration of "Snow Emergency"

A "snow emergency" shall be declared by the Mayor or his/her designee, either before, during or after a fall of snow, sleet or freezing rain, when in his/her sound judgement and discretion the circumstances warrant determination of such an emergency in the interest of safety upon the public roads of the Town.

The Mayor's Office shall cause public announcements of such determination of snow emergency prior to the time of becoming effective, after which time a snow emergency shall be in effect. The Mayor or his/her designee shall determine when such emergency no longer exists and shall make public announcement of the same.
