MEMORANDUM

TO:

FRED ALLYN, MAYOR, TOWN OF LEDYARD

FROM:

ALEX RODE, CHAIR, LEDYARD BOARD OF EDUCATION

SUBJECT: LEDYARD BOARD OF EDUCATION ADOPTED 2024-25 BUDGET

DATE:

FEBRUARY 23, 2024

Enclosed is the 2024-2025 budget adopted by the Ledyard Board of Education. This budget takes into consideration both short and long range planning, improvement of student achievement and meeting the increasing needs of our students. As we have over the past seven years, we attempt to balance district need, staffing, and scalability of improvements with the community's fiscal wherewithal.

LPS continues to provide education at a cost far below any other district in Southeastern CT, and is in the lowest 10% of the State in per pupil spending. We have shown each year to be good stewards of the resources allocated, and despite the funding challenges, continue to seek opportunities to serve our students at the highest level. Efficiency, innovation and a willingness to do whatever it takes are hallmarks of our team members. Ledyard is fortunate to have such dedicated educators, staff and families who partner together to make LPS a special place for our children.

This year's budget proposal is primarily funding the status quo, with eighty-nine percent (89.5%) of this proposed budget increase driven by an effort to maintain required services, meet contractual agreements (40.0%) and address inflationary increases (49.5%). Twenty-two percent (21.6%) of this request is allocated for additional resources for programmatic needs, but the additional amount has been offset by line item reductions of (6.8%) and retirement savings of (4.3%).

As stated last year, the "demands for programing, interventions, and other support will not soon disappear." We continue to see an increased need for special services and social emotional skill development. There has been success with the implementation of kindergarten purposeful play and our efforts around early literacy. While Ledyard was ahead of the state law mandating purposeful play, despite a request for waiver, we have been mandated by the State to allocate over \$200,000 for additional reading programing, of which our team is offsetting through grant funding from DoDEA.

In the spring of 2023 a dedicated group of stakeholders drafted a new five year Strategic Plan. The plan, awaiting approval by the Board of Education, builds upon the last strategic plan and

)
		, , ,
)

sets to accelerate systemic improvements that will help our students fully reach their potential and meet the vision our community has for our children. This budget does not allocate funding for this implementation, an estimated \$1,055,000 total over the next five years.

The proposed budget for the 2024-2025 school year is \$38,369,823, a \$2,461,455 (6.85%) increase over the FY 2023-24.

While not all inclusive, some items of note in the Board of Education adopted 2024-25 budget proposal are:

- Savings related to three (3.0) known teacher retirements (FTEs retained)
- Substitute Teacher wage increase \$100 to \$125 and additional Coverage
- Multi-tiered Systems and Supports (MTSS) Coordinator
- Clinical Supervision of Mental Health Staff
- Compliance with State "Right to Read" requirements
- LMS Teacher Staffing Potentially Family Consumer Science
- LMS Social Worker Replace ESSR Grant Outside Provider
- Literacy Interventionist
- Elimination of "over the river" choice transportation

BOARD OF EDUCATION ADOPTED BUDGET SECTION I: EXECUTIVE SUMMARY

2024-2025 Budget Breakdown

Salaries and Wages (object codes 51010-51300) - Increase \$1,279,000 (4.83%)

Teacher salaries support regular education activities, library media services, the special education program, pre-kindergarten program, guidance and career services, intervention, social workers, and school psychologists. Teacher Salaries (51030-51050) increase overall by \$1,279,000. This increase includes the contractual gross wage increase, plus step and three known retirements at an estimated savings of \$105,000. In addition, the 2024-2025 budget includes 1.0 FTE Multi-tiered System of Supports (MTSS) Coordinator, 1.0 FTE Unified Arts teacher and 1.0 FTE Social Worker at the Ledyard Middle School. In addition, a 1.0 FTE Literacy Inventionist and 1.0 FTE Clinical Supervisor of Mental Health Staff has been added. An Attendance Advocate fully funded through a state School Mental Health Specialist Grant is listed as an increased 1.0 FTE, with no corresponding budgetary allocation.

School Administration is involved in activities associated with directing and managing individual schools' operations following system-wide policies and standards. The administration is responsible for the supervision of all school operations, including oversight of curriculum and instruction, students' academic and extracurricular activities, assignment of duties, evaluation

of staff members and maintenance of educational records. School-based administration includes 4.0 FTE Principals, 5.0 FTE Assistant Principals, and 4.0 FTE Special Education Administrators. The ratified Ledyard Administrators Association (LAA) contract calls for a gross wage increase of 3.0%.

The AFSCME Paraprofessional bargaining unit agreement is currently under review for the next fiscal year with funds allocated based on anticipated cost. AFSCME Secretarial bargaining unit, the AFSCME Custodian/Maintenance bargaining unit, the AFSCME Information Technology bargaining unit are responsible for the oversight of critical district tasks that include, but are not limited to: Administrative tasks for offices, data management, attendance data, purchasing, maintenance and cleaning of building sites, maintenance of grounds, maintenance of equipment, student information systems, information technology hardware used by staff and students, and assistance in oversight of students.

The substitute teacher rate has been adjusted from \$100/day to \$125/day.

Employee Benefits (object codes 52200-52800) – Increase \$16,497 (1.97%)

Unemployment Expense (52600), District Tuition Reimbursement (52350), and Social Security/Medicare Expense (52200) have been adjusted based on trends, previous fiscal year expenditures and anticipated increases.

The Town managed budget includes funds for school district personnel group insurance. The Ledyard Education Association, our largest bargaining unit, will increase from a 22.75% premium share in the 2023-2024 fiscal year to a 23.5% premium share in the 2024-2025 school year. In 2024-2025, the LAA Group will have a 20.5% premium share (unchanged from 2023-2024); the AFSCME Custodian/Maintenance group will have a 17.75% premium share (increase of 0.25% over 2023-2024); the AFSCME Secretary group continues at a 19% premium share, which is unchanged for the duration of agreement; the AFSCME IT group has a 18.4% premium share. The AFSCME Paraprofessional group has a 20% premium share in 2023-2024.

Insurance costs typically increase annually; assuming a 9% increase to insurance rates and flat enrollment, the above premium share changes represent an increase in employee insurance share of approximately \$180,883 allocated to offset town government expenses.

Professional/Technical Services (object codes 53210-53740) – Increase \$110,143 (10.58%)

Professional and Technical Services are forecasted to increase in 2024-2025. There is an estimated increase of \$51,000 in special education student services (2091290 53400), an increase of \$39,000 for physical therapy (2019260 53400). This is related to mandatory services for special needs students including contracted registered behavior therapists, special education professional development, and an increase of students receiving occupational therapy and physical therapy services based on Individual Education Plans (IEPs) and 504 Plans. An increase of \$20,000 for legal services (2082320 53400) has been budgeted based on known risks for the upcoming school year.

		¥	
F			

Purchased Property Services (object codes 54100-54900) – Increase \$185,267 (27.33%)

We estimate an increase in technology equipment maintenance in the amount of \$155,000 related to our fiber network, copier leases, K-12 technology services, and out of warranty and failing equipment repair. The estimated impact of the ERate grant for offsetting costs in this line is \$78,000 based on our prior year experience.

Maintenance repair costs (2112600 54300) are projected to increase by \$20,000 due to state required inspections and evaluations of all of the HVAC systems across the district. In addition, repairs and maintenance at Ledyard Middle School increased \$10,000 due to the ITV service contract, who are the HVAC inspectors/evaluators for that specific system.

Other Purchased Services (object codes 55100-55900) - Increase \$526,416 (12.36%)

The budget for transportation (55100) is impacted by the ongoing negotiation of the bus contract, offset by the elimination or consolidation of some of the bus routes. The district will no longer provide transportation to New London-based choice schools. As a result of this realignment, we anticipate an offset to district costs (\$73,495) and a corresponding reduction in the state Magnet School Transportation Grant. Transportation to state technical schools along with any choice schools enroute will continue as required by law.

Pupil Transportation services include conveying students to and from school as required by state and federal laws. In addition, the district provides transportation to school sponsored activities. Ledyard currently contracts for twenty-two (22) regular buses and seven (7) special education buses. Other providers are utilized for specialized transportation for students, including but not limited to homelessness, DCF placement, IEP or 504 determination, or out of district placement.

Tuition costs are related to three areas: special education out-of-district programs, magnet schools, and adult education. Special Education outplaced tuition is highly volatile and is an area of ongoing risk. Due to escalating student need, enrollment and inflationary cost, public special education tuition (55600) is forecasted to increase by \$249,000.

Ledyard Public Schools participates in the Norwich Collaborative Adult Education Consortium. The consortium provides mandated courses in citizenship, English for those with limited proficiency, and courses leading to a graduate equivalency diploma (GED). A state grant partially funds this program, and Ledyard Public Schools is required to fund the balance. The adult education line (55900) is budgeted at \$32,725.

Supplies (object codes 56110-56900) – Increase \$345,504 (15.52%)

There is an increase in Electricity expense (56220) of \$140,000 based on new supply costs that begin December 2024. Natural gas (56210) is anticipated to increase \$50,000, heating oil (56200) is increased by \$15,000. Diesel (56260) is decreased by \$5,000, as a result of the bus route elimination/consolidation. Heating oil and diesel fuel are negotiated annually each spring for the following year. Due to weather, fluctuating markets and costs, our utility expenses are an ongoing area of risk.

Instructional supplies (56110) increased by \$84,000, caused by a \$100,000 increase due to the first year of the state-mandated reading program. The cost of the state-mandated reading program is estimated at over \$200,000. To minimize impact the district is seeking grant funding to bridge the cost difference of implementing this unfunded mandate. This cost is partially offset by general decreases in instructional supplies across the district.

Textbook expenses (56400) have been adjusted based on specific needs, revisions and renewals in the curriculum cycle. The budget for textbooks increased by a net \$18,500 based on the requirements for the upcoming school year. Testing supplies - instructional technology (56800) for curriculum initiatives increased by \$16,000 for expenses related to the new math program at LMS that were not funded by DODEA grant.

Technology supplies (56890) are increased for implementation of DIBELS grades 4-5. Other supplies (2052400 56900) have been increased by \$22,500 to allow for modification/utilization of the cafeteria as a classroom space at LMS. This would include classroom setup as well as required equipment.

Equipment (object codes 57300-57350) - Increase \$3,628 (1.75%)

District software lines are flat funded based on current usage, grant funding, and projected usage. Curriculum software (2161601 57350) has been increased \$3,600 due to vendor price increases.

Dues and Fees (object codes 58100-58120) - Decrease \$5,000 (-3.26%)

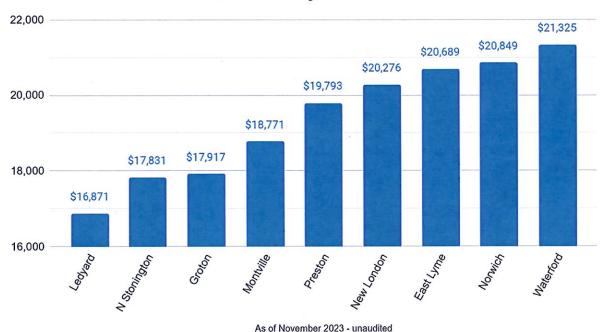

District dues and fees (58100 and 58120) are budgeted to decrease by \$5,000 based on prior year utilization and ongoing evaluation.

SECTION II: NET CURRENT EXPENDITURES PER PUPIL

Connecticut State Department of Education Net Current Expenditures per Pupil (NCEP)								
2018-2019 2019-2020 2020-2021 2021-2022 2022-20					2022-2023			
State Average	\$18,791	\$19,339	\$20,707	\$21,438	\$19,716

Ledyard Rank	156	154	160	159	153			

New London County 2022-2023 NCEP

Net Current Expenditures per Pupil

Net Current Expenditures per Pupil (NCEP) has been a primary measure of per-pupil spending in Connecticut for more than three decades. NCEP measures all education expenditures with a couple of adjustments (as explained below) for all the students for which a town is fiscally responsible, regardless of whether the town operates its own school or tuitions its resident students to other districts/regions, magnet or private schools.

ADM

Under C.G.S. Section 10-261(a)(2), average daily membership (ADM) is calculated from the October Public School Information System (PSIS) and the Education Financial System (EFS).

ADM represents resident students educated in and out of the district, adjusted for school sessions in excess of the 180-day/900-hour minimum, tuition-free summer school, and Open Choice participation. Prekindergarten students are counted on a full-time equivalency basis.

NCE

Net current expenditures (NCE) are calculated as defined in Connecticut General Statutes (C.G.S.) Section 10-261(a)(3). NCE includes all current public elementary and secondary expenditures from all sources, excluding reimbursable regular education transportation, tuition revenue, capital expenditures for land, buildings, equipment, and debt service. The information for determining NCE is provided from the Education Financial System (EFS).

NCEP

Net current expenditures per pupil (NCEP) represent NCE divided by ADM.

NCEP Rank

Each town is ranked between 1 (highest) and 166 (lowest) in NCEP.

SECTION III: THE BUDGET PROCESS

The Ledyard Public School District annual operating budget is developed each year through numerous school and central office staff members' collaborative efforts in conjunction with the Superintendent and Board of Education. The timeline for the process begins in August with a review of system objectives for the year, throughout fall with discussions of staffing and school budgets, and through to the Town Meeting held in May.

With the support of the Board of Education, the district continues its process of allocating resources and developing coherence as an organization. Budget requests are based on the holistic district needs and priorities, rather than isolating choices simply to specific schools or department requests. This approach allows for more directed systemic improvements and shifting of resources to improve outcomes for all students. Budget decisions impact educational programs for students as well as the broad range of operations and services within the schools, all of which are designed to support the learning experience and well-being of our students. Our holistic approach works to ensure facilities management, human resources and personnel, transportation, special services, curriculum development, programs of studies, curricular, co-curricular and extra-curricular activities, pupil services, special education, food services, supplies and materials, equipment, and other essential features are moving to an aligned, cohesive, efficient and effective system.

Under the direction of principals and district leadership, budget requests are initially developed at the school and department levels. Proposed budget changes are discussed with the Superintendent and Director of Finance during multiple and iterative school and department budget consultations. Each recommendation is carefully evaluated for its alignment and coherence to district efforts, focus on the improvement of student success/equity, and clearly identified critical needs.

The general steps in this process are:

- 1. Board of Education members provide feedback on current district operations, initiatives and future planning.
- 2. The Board of Education receives Town Council Budget Directive Letter, Board of Education issues guidance to the Superintendent.
- 3. Superintendent provides a budget overview and reviews priorities with the leadership team.
- 4. Budget requests are reviewed by the Directors, Instructional Leaders, and Principals who make adjustments as necessary to meet overall goals for the department, school, and district as outlined in the Superintendent's guidance.

- 5. School/program budgets are submitted to the Director of Finance for preliminary review.
- 6. Budget discussions are held with administrators, the Director of Finance and Superintendent. This iterative process is designed to discuss and determine priorities for the overall district budget request.
- 7. Superintendent presents the budget to the Board of Education for review in early January.
- 8. The Board of Education provides opportunity for community review and feedback.
- 9. The Board of Education discusses, modifies, and adopts the Board's budget, typically by mid-February.
- 10. The Board of Education budget is provided to the Mayor and Town Council for their consideration and eventual adoption by the community.

SECTION VII: MUNIS BUDGET REPORT

The budget projection document in this section is sorted by ORG, composed of location code and function code. Second, it is sorted by object code, identified as OBJECT. The ORG code consists of seven numbers made of two components: the first three numbers are the budget line's location code, and the last four numbers are the budget line's function. The OBJECT code in the database groups budget lines by a specific expense in categories including salaries, benefits, purchased services, supplies, and equipment.

For example, a general instruction (1000) instructional supply (56110) budget line at the location Gales Ferry School (202) will be identified as 2021000 56110. A math instruction (1011) teacher salary (51040) at Ledyard Middle School (205) will be identified as 2051011 51040.

Location codes are utilized to group accounts by school building (location codes 201 to 206) and also to group accounts that relate to multiple buildings by type (location codes 207 to 216).

- Next Year Budget Comparison Report: MUNIS report reflecting proposed 2024-2025 budget
- 2024-2025 Budget Including \$ Inc/Dec and % Inc/Dec: Excel spreadsheet showing both dollar and percentage changes over 2023-2024 budget

School District Capital Needs Report

FY 2025

Approved by the Ledyard Board of Education 12/19/2023

Intentionally left blank

Introduction

The Ledyard School District has, currently under its care, six municipal buildings:

- Ledyard High School
- · Ledyard Middle School
- Gallup Hill School
- · Juliet W. Long School
- Gales Ferry School
- · Board of Education/Park and Recreation Storage

The objective of this report is to provide a narrative summary of the Board of Education's capital requests for each of these locations, as well as those items that are district-wide in nature.

Background

By State statute, the Ledyard BOE must provide its students with an appropriate learning environment that is safe and properly maintained. This obligation includes the daily upkeep of school facilities and equipment—routine maintenance. In addition to providing safe and properly maintained schools, the local BOE must continually study the need for school facilities and must make building recommendations to the town (CGS § 10-220(a)). As such, this report is part of an ongoing process to provide more comprehensive information regarding the capital needs of the District to the Town Council and members of the community. This year at the request of the Town Council Finance Committee, we are providing information and cost estimates for all foreseeable Capital projects.

A Capital Item, for the purposes of this report, is defined as a project in excess of \$5,000, long term in nature, which aims to repair, maintain or improve building infrastructure. While this report will describe District needs per location, they have been ranked in priority on a District-wide level.

- **Operating**: while these items may be capital in dollar value, their scope allows for careful, targeted execution through Repair and Maintenance (54300) and Supply (56900) line items.
- Non-Recurring: The items under this heading exceed, in dollar amount, what can reasonably be executed with yearly operating funds, but may or may not meet the need for bonding. The funding source may be existing funds in the Board of Education Capital Account or through newly appropriated town funding.
- AG Science Non-Recurring: This account holds the State ASTI funds provided by the State for exclusive use in support of the Agricultural Science Program at Ledyard High school and requires approval of the Town Council for authorized projects.
- **Bondable**: these are large-scale projects which would require funding sources outside of typical annual capital appropriations (typically bond issue).

The projects may range from "critical" in nature to "nice to have", but each has been put forth for discussion because the Board believes they either preserve or enhance the learning environment at Ledyard Public Schools. They address a range of issues: refurbishing deteriorated or aging facilities, safety and security upgrades, increasing operating and energy efficiencies, providing higher quality indoor air, etc. Within this report, a summary cost estimate is provided; suggested ten year financial layouts.

Gales Ferry School 1858 Route 12

Gales Ferry Elementary School, built in 2001. It is a 45,362 square foot building that houses students in kindergarten through second grades.

During the 2023 Fiscal Year, a new water heater was installed along with a security vestibule.

Despite the relative age of Gales Ferry School (which will be 22 years old in 2023), there are facilities concerns that have arisen, and others that are anticipated given the life expectancy of finishes. The highest priorities of these are:

- Replacement of the roof, the addition of solar along with repairs to the copulas and replacement of the Building Management System was approved by the town in the 2021-22 Capital Budget.
- Replacement of the low impact playground surfaces.

Juliet W. Long School 1854 Route 12

Juliet Long School serving third through fifth grades, is a 37,600 square foot building constructed in two phases in 1961 and 1964, with no major extensions or alterations since. During the 2023 Fiscal Year, the boy's restroom in the 5th grade wing was renovated with new fixtures and wall / floor coverings.

The highest priority facilities needs at this location include:

- The Town approved the replacement of the roof, upgrades to the electrical service and the addition of solar and air conditioning at JWL in the 2021-22 Town Capital Budget.
- Additional capital items of lower priority for Juliet W. Long School are detailed in the full report. (\$153,000)
- Replacement of the fire alarm system, multiple zones have failed and there are no longer any spare zones.
- Renovations to the remaining classrooms over the 2025-27 budget years.
- During the 2023 -2024 budget the town approved the integration of an outdoor classroom at JWL

Ledyard High School

24 Gallup Hill Road

Ledyard High School (9-12) is a 275,000 square foot, two story building. The main portion of the building was constructed in two phases in 1962 and 1966. A 1988 project added the band/choral rooms and an auxiliary gymnasium; a 2002 project added the media center and Agri-Science extension.

During 2023 Fiscal Year the following were completed at LHS:

- New feed room installed in the Ag Science Barn
- New storage shed installed for Ag Science
- Electric gate installed to the rear of Ag Science
- Minor renovations to the nurses area to accommodate the SBHC
- New LED lights were installed in the Aux Gym
- Renovations to the greenhouse off room 103
- Renovations to the science room 103
- Renovations to the classrooms in the 300 wing
- New cabinets installed in the Ag Science Horticulture room
- New small animal lab was installed in the Ag Science small animal room
- Rotted sill plates replaced in the Ag Science Barn

The highest priority facilities needs at this location include (not in order):

- Classroom Renovations: This is to continue the renovation of classrooms at LHS. The
 project includes new ceilings, lighting, updated technology, painting and window shades
 along with furniture where needed. It is expected that this project has two years left to run.
 (\$165,000 per year)
- Replacement and upgrade to the fire alarm system. Consistent false alarms do to equipment issues, continue to get more frequent.
- Renovation to the culinary classroom at LHS. The existing culinary room does not efficiently support the curriculum needs of the students and as with the remainder of the building is in need of renovation. \$125,000.
- Paving of the parking area. The parking lot has drainage and design issues, multiple potholes and broken or missing curbing. \$1,500,000.
- Softball fields do not drain well and maintain wet and ponding water for days after the rain has ended. The field needs to be cut down with proper drainage installed and resurfaced to allow for playable conditions during wet seasons. \$75,000
- Replacement of the boilers. Both of the oil boilers at the High School are long past their expected life cycle and also do not meet the modern energy saving criteria. Consideration should be given to replacement of the entire heating system to a hot water system, eliminating the steam. This should also be tied to the installation of a Building Management System to allow better control of the heating in each space. \$4,500,000.
- Replacement of windows. The existing windows are significantly aged, inefficient and at times hard to operate. \$1,600,000 This project should be completed prior to the heating and HVAC projects being completed.
- Elevator replacement the existing elevator is original to the building and in need of replacement \$210,000

- Add an elevator to the lower level. The current lower level of the High School is limited to access via stairs. There is no current accessibility access to the lower level. \$250,000
- Renovations to the locker rooms on the lower level. This would be a continuation of the student restroom renovations on the main levels. This will also provide equity to the student athletes that currently do not have access to lockers and restrooms on the lower level, \$125,000
- Ventilation and AC to classrooms. Currently only special needs rooms and computer labs have single unit air conditioning. With the warmer days in the fall and spring along with summer school the high temperatures make keeping students engaged difficult. \$6,000,000
- Air conditioned auditorium. This space is not currently air conditioned and is used as the town's only large meeting space and the only district facility able to accommodate groups over 300 people. Even in shoulder times of the year the occupancy loads make the space uncomfortable. \$400,000
- Remove the existing old generator. This space is not water tight and leaks in every rain the humidity also continues to create problems with the fire alarm system. Cost is to remove and create a watertight ground level enclosure. \$15,000
- Tennis courts will need to be resurfaced. This is a normal cycle occurring every 10-15 years, \$40,000
- Replace turf field scoreboard. The new turf field is a multi-sports field including football, soccer and lacrosse. The existing scoreboard was set up for football only. There is the possibility of the vendor moving the existing scoreboard to Crandall field at no cost. \$70,000
- Replace roof on media center. The existing roof has reached the end of its useful life and we
 continue to have repairs. To prevent water infiltration this section should be replaced.
 \$400,000.
- Main Gymnasium:
 - The existing dividing wall is not used because it prevents the teacher from monitoring the entire gym during class and should be replaced with a drop down net material to allow visual access to the entire gym. (\$20,000)
 - The existing bleachers at times are not fully extended and are not ADA compliant.
 New bleachers are needed that have the proper safety features to allow partial operation of the bleachers. (\$125,000)
 - Gym Ceiling: The existing suspended ceiling is damaged and in need of replacement. This should be removed and the roof deck and equipment painted. This will involve some asbestos abatement on the heat piping. (\$50,000) Total project cost (\$195,000)
 - Aux Gym: The padding in the auxiliary gym is in need of replacement and has reached the end of its useful life. (\$30,000)
- Classroom Renovations: This is to continue the renovation of classrooms at LHS. The
 project includes new ceilings, lighting, updated technology, painting and window shades
 along with furniture where needed. It is expected that this project has two years left to run.
 (\$165,000 per year)
- Replacement and upgrade to the fire alarm system. Consistent false alarms do to equipment issues, continue to get more frequent.
- Additional capital items of lower priority for Ledyard High School are detailed in the full report

Central Administration Building 4 Blonders Boulevard

Constructed in 1991, the Central Administration Building is a 6,000 square foot facility housing the Ledyard Board of Education Central Office. The Conference Room at this location functions as a location of many Board and Town meetings, staff training, as well as classroom space for Park and Rec programs. The lower level of the building serves as a storage area for district records and equipment storage for Park and Recreation.

Up to this point, building repairs have been addressed through Operating budget, as they have been "routine" in nature; however, with the building exceeding 25 years, there are or will be life expectancy issues with the following items:

• In the town 2021-22 capital budget replacement of the roof was approved.

Gallup Hill School 169 Gallup Hill Rd

Gallup Hill School (PK-5) is a 80,000 square foot building, renovated and expanded in 2019. Due to the renovation there are limited needs. The following needs are for items that were not addressed or unknown at the time of the design of the project.

- Outdoor classroom: Part of the 21st century learning is to provide flexible learning space. Approved in the 2023 2024 budget
- Pre K Canopy: During drop off and pick up, the lack of a covered space for students to line up creates delays in loading and unloading students. Providing a covered space will dramatically reduce the pick up and drop off times helping to eliminate traffic back ups on Gallup Hill Rd. Approved in the 2023 - 2024 Budget.
- Ever Source paid for a recommission study for Gallup Hill School. The estimated cost for implementation would be \$120,500 resulting in savings of \$30,552 a year.
 Eversource will contribute up to 40% of the cost reducing the town cost to \$72,300 for a 2.4 year pay back.

Ledyard Middle School 1860 Route 12

Renovated and expanded in 2019, Ledyard Middle School is a 93,000 square foot building. Serving students in 6th to 8th grade. Due to the renovation there are limited capital needs at this time.

- The current design of the Middle School Cafeteria is undersized for the student population. It does not provide seating for a single grade level for lunch, causing program impacts. < \$500,000
- Eversource paid for a recommissioning study for LMS with implementation costs of \$41,400. Creating a savings of \$21,005 a year. Eversource will contribute up to 40% of the cost reducing the town cost to \$24,840 for a 1.2 year payback.

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021

Project title: LHS Boiler Heating System Program Area: Facilities Replacement & BMS

Project Description: The existing boilers at Ledyard High School are original to the building and are 60 years old. There are currently a limited number of companies that continue to service these types of boilers. During the repairs in 2020 we were advised that the amount of repairs has downgraded the metal and future repairs are questionable. Conversion from steam to hot water should be considered. This will generate energy savings of between 13-27% on oil costs. Replacement of the current pneumatic thermostat system is also recommended to allow better control of the heating cycle.

Evaluation Category: DF

Planning Context: Order time on the boilers will be long so the maximum time frame from approval to commencement of work should be allowed. Time will also be needed for engineering and design.

Schedule: Late Spring to early Fall.

Coordination: Will depend on the final plan and degree of the amount of project approved.

Previous Town Meeting Action: Previous repairs paid for and operating budget carries a \$22,000 repair item

Project Priority:

H Priority within department / program area

H Risk of deferring project

Estimated Cost: \$4,500,000 / 2027

Basis of cost estimate:

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021

Project title: <u>LHS Parking Lot</u> Program Area: <u>Facilities</u>

Project Description: The Ledyard High School parking lot is in need of resurfacing. It ponds water and has multiple cracks and potholes. The District has cut out and replaced small sections that created especially dangerous walking conditions over the past two years. Broken curbing prevents the proper diversion of rain water to the catch basins.

Evaluation Category: DF

Planning Context: Needs to be scheduled around school and town events.

Schedule: Summer

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021 Project title: Classroom air conditioning Program Area: Facilities & ventilation Project Description: The warmer early spring days and the higher temps into September and October make portions of Ledyard High School excessively warm. This creates a poor learning environment. This combined with the lack of ventilation to control CO2 levels results in students becoming less than attentive. This will bring the High School in parity with the other schools in the district. Evaluation Category: NEF/IOE/EPS Planning Context: Project will need 6-8 months minimum for engineering and material acquisition. Project may need to be completed over 2 years. This should also be completed after the window project. Schedule: Summer Coordination: None but may want to look to see if this should be combined with the heating project. Schedule: Summer work will be necessary for an unoccupied building, after the expiration of the current contract.

Coordination: Selection of a fire alarm system should follow the guidance of PMBC selection of a system for the renovated buildings at Gallup Hill and Ledyard Middle. A district-wide choice in the system would allow for economic purchasing of parts, simplification of maintenance, as well as a more uniform service and inspection contract.

Previous Town Meeting Action: No previous Town action.

Project Priority:

H Priority within department/program area

L Risk of deferring project

Estimated Cost: \$ 2025: \$75,000

Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate.

__Cost of comparable facility or equipment

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021 Project Title: JWL Playground Pavement Program Area: School Facilities **Project Description:** The playground pavement at Juliet Long School has many cracks, heaves, and divots; many are becoming tripping/safety hazards. In addition to this, the drainage from the paved areas needs to be addressed, as currently pitch leads toward swing set areas; heavy rains lead to the washing away of playground surface mulching. The age of the pavement is uncertain, but the pavement is likely to be original. Approximate area: 2,800 square yards. Further study is needed to determine scope of work - if removal of existing asphalt will be necessary, or if these issues can be addressed without full scope of removal. Evaluation Category: DF, RPH Planning Context: Chow-Lawler (1996) and SMMA (2011) both spoke to the issue of playground surface needs. **Schedule:** Summer work would provide the best conditions for the process, and the least interference with student activities, although it would interfere with Town P&R camp activity. Also, if coordinated with Town summer pavement projects, a substantial discount on material may be obtained. **Coordination:** This work is not dependent on any other capital work. Previous Town Meeting Action: No previous Town action. **Project Priority:** M Priority within department/program area L Risk of deferring project Estimated Cost: \$ 2027: \$70,000 Basis of Cost Estimate: Check one of the following. X Preliminary estimate, (e.g. no other basis for estimate guesstimate)

Alternative Financing: None.

Form 1. Individual Project Proposal Descriptions and Justification

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021

Project Title: LHS Masonry Repair Program Area: School Facilities

Project Description: Several areas of the LHS brick façade are in need of repair. A false column near the media center is pulling away from the building and has no wire ties to the building; the main chimney would benefit from installation of a cap; several areas in need of repointing. Further, more in-depth investigation is needed to establish the full scope of need, but this budget figure is an estimate to address these major issues to start with.

Evaluation Category: DF

Planning Context: The chimney was repaired approximately 7 years ago, but capping was not in the budget/scope of work.

Schedule: Summer or vacation work would be necessary at the media center location of work; however, several other areas could be addressed at any time.

Coordination: Work is not contingent upon other CIP projects.

Previous Town Meeting Action: No previous Town action.

Project Priority:

M Priority within department/program area

L Risk of deferring project

Estimated Cost: 2025: \$20,000

Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate.

__Cost of comparable facility or equipment __Rule of thumb indicator, unit costs

From the cost estimate from engineer, architect, or vendor

___From bids received

X Preliminary estimate, (e.g. no other basis for estimate, guesstimate)

Prepared by: Wayne Donaldson Date Prepared: December 1, 2022 Project Title: District Wide HVAC Maintenance Program Area: School Facilities **Project Description:** Provide funds for the proper maintenance of the HVAC systems **Evaluation Category: DF** Planning Context: The new equipment at LMS and GHS along with the existing heating and cooling systems need regular scheduled maintenance to ensure the proper operation over the life of the units. This work will be completed with a combination of inhouse and contractors. **Schedule**: As required by the manufacturer. **Coordination:** As needed, major inspections and verification before the start of school each year. Previous Town Meeting Action: No previous action by Town. **Project Priority:** M Priority within department/program area L Risk of deferring project Estimated Cost: 2025: \$110,000; 2026: \$110,000; 2029: \$110,000 Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate. Cost of comparable facility or equipment Rule of thumb indicator, unit costs X From the cost estimate from engineer, architect, or vendor From bids received Preliminary estimate, (e.g. no other basis for estimate, guesstimate)

Ledyard Board of Education 2024-2025 Budget Funding Contingency Plan

The Ledyard Town Charter Revision, dated December 3, 2018, requires the Board of Education to include as part of the annual budget submittal, "plans for dealing with additional reductions in State funding that might occur after the Board of Education budget is prepared that could include reduction in services."

Upon direction from the Ledyard Town Council that included a target reduction amount, the Ledyard Board of Education will evaluate the Board of Education adopted budget to identify potential specific reductions. It should be understood that any reductions to the budget will impact programs or district services to students.

It is important to consider that the Ledyard Board of Education budget is approximately 72% salary and wages. The remaining portions are made of relatively small allocations of mostly required expenses including student transportation. Any reduction to the 2024-2025 approved Board of Education budget would necessitate a reduction in staff, which will potentially result in reduction in the number of class offerings, programming and student opportunities.

Collective bargaining rules and current contracts would require the newest hired staff, potentially the lowest compensated to be eliminated first, based on their particular assignment and the least impact to students.

For example:

- A \$110,000 reduction could necessitate the reduction of two teaching staff
- A \$180,000 reduction could necessitate the reduction of two teaching staff and three paraprofessional staff
- A \$210,000 reduction could necessitate the reduction of three teaching staff and two paraprofessional staff
- A \$260,000 reduction could necessitate the reduction of three teaching staff and four paraprofessional staff

The Board of Education will conduct Special Meetings, as required, to review the options identified by the Central Office and Staff and develop and approve a proposed budget revision to address the Town Council required reduction(s).
