LEDYARD PUBLIC SCHOOLS

DEPARTMENT OF FACILITIES

4 BLONDERS BOULEVARD, LEDYARD, CT 06339 (860) 464-9255 ext 1401

School District Capital Needs Report

FY 2025

Approved by the Ledyard Board of Education 12/19/2023

Intentionally left blank

Introduction

The Ledyard School District has, currently under its care, six municipal buildings:

- Ledyard High School
- Ledyard Middle School
- Gallup Hill School
- Juliet W. Long School
- Gales Ferry School
- Board of Education/Park and Recreation Storage

The objective of this report is to provide a narrative summary of the Board of Education's capital requests for each of these locations, as well as those items that are district-wide in nature.

Background

By State statute, the Ledyard BOE must provide its students with an appropriate learning environment that is safe and properly maintained. This obligation includes the daily upkeep of school facilities and equipment—routine maintenance. In addition to providing safe and properly maintained schools, the local BOE must continually study the need for school facilities and must make building recommendations to the town (CGS § 10-220(a)). As such, this report is part of an ongoing process to provide more comprehensive information regarding the capital needs of the District to the Town Council and members of the community. This year at the request of the Town Council Finance Committee, we are providing information and cost estimates for all foreseeable Capital projects.

A Capital Item, for the purposes of this report, is defined as a project in excess of \$5,000, long term in nature, which aims to repair, maintain or improve building infrastructure. While this report will describe District needs per location, they have been ranked in priority on a District-wide level.

- **Operating**: while these items may be capital in dollar value, their scope allows for careful, targeted execution through Repair and Maintenance (54300) and Supply (56900) line items.
- **Non-Recurring**: The items under this heading exceed, in dollar amount, what can reasonably be executed with yearly operating funds, but may or may not meet the need for bonding. The funding source may be existing funds in the Board of Education Capital Account or through newly appropriated town funding.
- AG Science Non-Recurring: This account holds the State ASTI funds provided by the State for exclusive use in support of the Agricultural Science Program at Ledyard High school and requires approval of the Town Council for authorized projects.
- **Bondable**: these are large-scale projects which would require funding sources outside of typical annual capital appropriations (typically bond issue).

The projects may range from "critical" in nature to "nice to have", but each has been put forth for discussion because the Board believes they either preserve or enhance the learning environment at Ledyard Public Schools. They address a range of issues: refurbishing deteriorated or aging facilities, safety and security upgrades, increasing operating and energy efficiencies, providing higher quality indoor air, etc. Within this report, a summary cost estimate is provided; suggested ten year financial layouts.

Gales Ferry School 1858 Route 12

Gales Ferry Elementary School, built in 2001. It is a 45,362 square foot building that houses students in kindergarten through second grades.

During the 2023 Fiscal Year, a new water heater was installed along with a security vestibule.

Despite the relative age of Gales Ferry School (which will be 22 years old in 2023), there are facilities concerns that have arisen, and others that are anticipated given the life expectancy of finishes. The highest priorities of these are:

- Replacement of the roof, the addition of solar along with repairs to the copulas and replacement of the Building Management System was approved by the town in the 2021-22 Capital Budget.
- Replacement of the low impact playground surfaces.

Juliet W. Long School 1854 Route 12

Juliet Long School serving third through fifth grades, is a 37,600 square foot building constructed in two phases in 1961 and 1964, with no major extensions or alterations since. During the 2023 Fiscal Year, the boy's restroom in the 5th grade wing was renovated with new fixtures and wall / floor coverings.

The highest priority facilities needs at this location include:

- The Town approved the replacement of the roof, upgrades to the electrical service and the addition of solar and air conditioning at JWL in the 2021-22 Town Capital Budget.
- Additional capital items of lower priority for Juliet W. Long School are detailed in the full report. (\$153,000)
- Replacement of the fire alarm system, multiple zones have failed and there are no longer any spare zones.
- Renovations to the remaining classrooms over the 2025-27 budget years.
- During the 2023 -2024 budget the town approved the integration of an outdoor classroom at JWL

Ledyard High School

24 Gallup Hill Road

Ledyard High School (9-12) is a 275,000 square foot, two story building. The main portion of the building was constructed in two phases in 1962 and 1966. A 1988 project added the band/choral rooms and an auxiliary gymnasium; a 2002 project added the media center and Agri-Science extension.

During 2023 Fiscal Year the following were completed at LHS:

- New feed room installed in the Ag Science Barn
- New storage shed installed for Ag Science
- Electric gate installed to the rear of Ag Science
- Minor renovations to the nurses area to accommodate the SBHC
- New LED lights were installed in the Aux Gym
- Renovations to the greenhouse off room 103
- Renovations to the science room 103
- Renovations to the classrooms in the 300 wing
- New cabinets installed in the Ag Science Horticulture room
- New small animal lab was installed in the Ag Science small animal room
- Rotted sill plates replaced in the Ag Science Barn

The highest priority facilities needs at this location include (not in order):

- Classroom Renovations: This is to continue the renovation of classrooms at LHS. The
 project includes new ceilings, lighting, updated technology, painting and window shades
 along with furniture where needed. It is expected that this project has two years left to run.
 (\$165,000 per year)
- Replacement and upgrade to the fire alarm system. Consistent false alarms do to equipment issues, continue to get more frequent.
- Renovation to the culinary classroom at LHS. The existing culinary room does not efficiently support the curriculum needs of the students and as with the remainder of the building is in need of renovation. \$125,000.
- Paving of the parking area. The parking lot has drainage and design issues, multiple potholes and broken or missing curbing. \$1,500,000.
- Softball fields do not drain well and maintain wet and ponding water for days after the rain has ended. The field needs to be cut down with proper drainage installed and resurfaced to allow for playable conditions during wet seasons. \$75,000
- Replacement of the boilers. Both of the oil boilers at the High School are long past their expected life cycle and also do not meet the modern energy saving criteria. Consideration should be given to replacement of the entire heating system to a hot water system, eliminating the steam. This should also be tied to the installation of a Building Management System to allow better control of the heating in each space. \$4,500,000.
- Replacement of windows. The existing windows are significantly aged, inefficient and at times hard to operate. \$1,600,000 This project should be completed prior to the heating and HVAC projects being completed.
- Elevator replacement the existing elevator is original to the building and in need of replacement \$210,000

- Add an elevator to the lower level. The current lower level of the High School is limited to access via stairs. There is no current accessibility access to the lower level. \$250,000
- Renovations to the locker rooms on the lower level. This would be a continuation of the student restroom renovations on the main levels. This will also provide equity to the student athletes that currently do not have access to lockers and restrooms on the lower level. \$125,000
- Ventilation and AC to classrooms. Currently only special needs rooms and computer labs have single unit air conditioning. With the warmer days in the fall and spring along with summer school the high temperatures make keeping students engaged difficult. \$6,000,000
- Air conditioned auditorium. This space is not currently air conditioned and is used as the town's only large meeting space and the only district facility able to accommodate groups over 300 people. Even in shoulder times of the year the occupancy loads make the space uncomfortable. \$400,000
- Remove the existing old generator. This space is not water tight and leaks in every rain the humidity also continues to create problems with the fire alarm system. Cost is to remove and create a watertight ground level enclosure. \$15,000
- Tennis courts will need to be resurfaced. This is a normal cycle occurring every 10-15 years, \$40,000
- Replace turf field scoreboard. The new turf field is a multi-sports field including football, soccer and lacrosse. The existing scoreboard was set up for football only. There is the possibility of the vendor moving the existing scoreboard to Crandall field at no cost. \$70,000
- Replace roof on media center. The existing roof has reached the end of its useful life and we
 continue to have repairs. To prevent water infiltration this section should be replaced.
 \$400,000.
- Main Gymnasium:
 - The existing dividing wall is not used because it prevents the teacher from monitoring the entire gym during class and should be replaced with a drop down net material to allow visual access to the entire gym. (\$20,000)
 - The existing bleachers at times are not fully extended and are not ADA compliant.
 New bleachers are needed that have the proper safety features to allow partial operation of the bleachers. (\$125,000)
 - Gym Ceiling: The existing suspended ceiling is damaged and in need of replacement. This should be removed and the roof deck and equipment painted. This will involve some asbestos abatement on the heat piping. (\$50,000) Total project cost (\$195,000)
 - Aux Gym: The padding in the auxiliary gym is in need of replacement and has reached the end of its useful life. (\$30,000)
- Classroom Renovations: This is to continue the renovation of classrooms at LHS. The
 project includes new ceilings, lighting, updated technology, painting and window shades
 along with furniture where needed. It is expected that this project has two years left to run.
 (\$165,000 per year)
- Replacement and upgrade to the fire alarm system. Consistent false alarms do to equipment issues, continue to get more frequent.
- Additional capital items of lower priority for Ledyard High School are detailed in the full report

Central Administration Building 4 Blonders Boulevard

Constructed in 1991, the Central Administration Building is a 6,000 square foot facility housing the Ledyard Board of Education Central Office. The Conference Room at this location functions as a location of many Board and Town meetings, staff training, as well as classroom space for Park and Rec programs. The lower level of the building serves as a storage area for district records and equipment storage for Park and Recreation.

Up to this point, building repairs have been addressed through Operating budget, as they have been "routine" in nature; however, with the building exceeding 25 years, there are or will be life expectancy issues with the following items:

• In the town 2021-22 capital budget replacement of the roof was approved.

Gallup Hill School 169 Gallup Hill Rd

Gallup Hill School (PK-5) is a 80,000 square foot building, renovated and expanded in 2019. Due to the renovation there are limited needs. The following needs are for items that were not addressed or unknown at the time of the design of the project.

- Outdoor classroom: Part of the 21st century learning is to provide flexible learning space. Approved in the 2023 - 2024 budget
- Pre K Canopy: During drop off and pick up, the lack of a covered space for students to line up creates delays in loading and unloading students. Providing a covered space will dramatically reduce the pick up and drop off times helping to eliminate traffic back ups on Gallup Hill Rd. Approved in the 2023 2024 Budget.
- Ever Source paid for a recommission study for Gallup Hill School. The estimated cost for implementation would be \$120,500 resulting in savings of \$30,552 a year. Eversource will contribute up to 40% of the cost reducing the town cost to \$72,300 for a 2.4 year pay back.

Ledyard Middle School 1860 Route 12

Renovated and expanded in 2019, Ledyard Middle School is a 93,000 square foot building. Serving students in 6th to 8th grade. Due to the renovation there are limited capital needs at this time.

- The current design of the Middle School Cafeteria is undersized for the student population. It does not provide seating for a single grade level for lunch, causing program impacts. < \$500,000
- Eversource paid for a recommissioning study for LMS with implementation costs of \$41,400. Creating a savings of \$21,005 a year. Eversource will contribute up to 40% of the cost reducing the town cost to \$24,840 for a 1.2 year payback.

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021

Project title: LHS Boiler Heating System Program Area: Facilities Replacement & BMS

Project Description: The existing boilers at Ledyard High School are original to the building and are 60 years old. There are currently a limited number of companies that continue to service these types of boilers. During the repairs in 2020 we were advised that the amount of repairs has downgraded the metal and future repairs are questionable. Conversion from steam to hot water should be considered. This will generate energy savings of between 13-27% on oil costs. Replacement of the current pneumatic thermostat system is also recommended to allow better control of the heating cycle.

Evaluation Category: DF

Planning Context: Order time on the boilers will be long so the maximum time frame from approval to commencement of work should be allowed. Time will also be needed for engineering and design.

Schedule: Late Spring to early Fall.

Coordination: Will depend on the final plan and degree of the amount of project approved.

Previous Town Meeting Action: Previous repairs paid for and operating budget carries a \$22,000 repair item

Project Priority:

H Priority within department / program area

H Risk of deferring project

Estimated Cost: \$4,500,000 / 2027

Basis of cost estimate:

Cost of comparable facility or equipment.
Rule of thumb indicator, unit cost
X From the cost estimate from architect engineer, or vendor
From Bids Received
Preliminary Estimate, (e.g. no other basis for estimate,
guesstimate)

Alternative Financing: Possible US DEEP grant funding

Prepared by: Wayne Donaldson Date Prepared: <u>December 1, 2021</u>

Project title: LHS Parking Lot Program Area: Facilities

Project Description: The Ledyard High School parking lot is in need of resurfacing. It ponds water and has multiple cracks and potholes. The District has cut out and replaced small sections that created especially dangerous walking conditions over the past two years. Broken curbing prevents the proper diversion of rain water to the catch basins.

Evaluation Category: DF

Planning Context: Needs to be scheduled around school and town events.

Schedule: Summer

Coordination: none

Previous Town Meeting Action: none

Project Priority:

L Priority within department / program area M Risk of Deferring Project

Estimated Cost: \$1,500,000 / 2029

Alternative Financing: None

_Cost of Comparable Facility or Equipment
X_ Rule of Thumb Indicator, Unit Cost
Cost Estimate from Architect, Engineer or Vendor
From Bids Received
Preliminary Estimate, (e.g. no other basis for estimate guesstimate

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021

Project title: <u>LHS Window Replacement</u> Program Area: <u>Facilities</u>

Project Description: Windows in the original section of the building are in need of replacement. The windows are original to the building and no longer meet the current energy codes. Many windows do not function or are difficult to operate. Replacement will result in energy savings and a better ability to control the room temperature with less drafts.

Evaluation Category: DF/IOE

Planning Context: If possible this should be coordinated with the boiler and heating system replacement or before. The quality of the windows will affect the sizing of the system and should provide savings on the heating system and boiler change over.

Schedule: Summer

Coordination: None

Previous Town Meeting Action: None

Project Priority:

L Priority within department / program area

L Risk of Deferring Project

Estimated Cost: \$1,600,000 / 2026

__Cost of Comparable Facility or Equipment

X Rule of Thumb Indicator, Unit Cost

Cost Estimate from Architect, Engineer or Vendor

From Bids Received

Preliminary Estimate, (e.g. no other basis for estimate guesstimate)

Alternative Financing: None

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021 Project Title: LHS Elevator LL Addition Program Area: School Facilities **Project Description:** The existing lower level of the school does not have elevator access. At some point an ADA conformity inspection will require HC access to the lower level if it continues to be used. **Evaluation Category: EPS/NEF Planning Context:** Needs to be scheduled for summer work. Schedule: Summer. Coordination: None. Previous Town Meeting Action: None. **Project Priority:** L Priority within department/program area L Risk of deferring project Estimated Cost: 2032 \$250,000 Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate. Cost of comparable facility or equipment Rule of thumb indicator, unit costs X Cost estimate from engineer, architect, or vendor From bids received _Preliminary estimate, (e.g. no other basis for estimate, guesstimate) **Alternative Financing:** This project should be covered under the State School facilities grant for code compliance. The current reimbursement rate is 62.14%.

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021

Project title: <u>LMS Cafeteria Expansion</u> Program Area: <u>Facilities</u>

Project Description: The design of the LMS cafeteria does not allow for an entire grade level to have lunch as one body. Additional space is needed to alleviate overcrowding and maintain each grade level as a harmonious group.

Evaluation Category: DF/SR

Planning Context: Allow one budget cycle for State Funding.

Schedule: Summer

Coordination: None

Previous Town Meeting Action: None

Project Priority:

M Priority within department / program area

M Risk of Deferring Project

Estimated Cost: \$500,000 / 2027

___Cost of Comparable Facility or Equipment

___Rule of Thumb Indicator, Unit Cost

__Cost Estimate from Architect, Engineer or Vendor

___From Bids Received

 \underline{X} Preliminary Estimate, (e.g. no other basis for estimate guesstimate)

Alternative Financing: State School Facilities Grant currently 62.14% of eligible project costs.

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021

Project title: Classroom air conditioning Program Area: Facilities & ventilation

Project Description: The warmer early spring days and the higher temps into September and October make portions of Ledyard High School excessively warm. This creates a poor learning environment. This combined with the lack of ventilation to control CO2 levels results in students becoming less than attentive. This will bring the High School in parity with the other schools in the district.

Evaluation Category: NEF/IOE/EPS

Planning Context: Project will need 6-8 months minimum for engineering and material acquisition. Project may need to be completed over 2 years. This should also be completed after the window project.

Schedule: Summer

Coordination: None but may want to look to see if this should be combined with the heating project.

Previous Town Meeting Action: None

Project Priority:

L Priority within department / program area

L Risk of Deferring Project

Estimated Cost: \$6,000,000 / 2028

__Cost of Comparable Facility or Equipment

___Rule of Thumb Indicator, Unit Cost

X_ Cost Estimate from Architect, Engineer or Vendor

___From Bids Received

___Preliminary Estimate, (e.g. no other basis for estimate guesstimate)

Alternative Financing: None

Prepared by: Wayne Donaldson	Date Prepared: <u>December 1, 2021</u>

Project Title: LHS Fire Alarm Upgrades

Date Prepared: December 1, 2021

Program Area: School Facilities

Project Description: The current fire alarm system at LHS no longer meets the current codes. To limit damage in the event of a fire it is important that rapid notification to the fire department is received. The current system has continuous false alarms due to the deterioration in the equipment.

Evaluation Category: <u>IOE</u>

Planning Context: Prior to contract end with SimplexGrinnell, more work needs to be done to estimate installation costs as well as potential service contract savings, in order to determine fiscal prudence of the change. The estimate for this work is preliminary in nature, based on a generic square foot calculation; vendor budgetary estimates will be sought.

Schedule: Summer work will be necessary for an unoccupied building, after the expiration of the current contract.

Coordination: Selection of a fire alarm system should follow the guidance of PMBC selection of a system for the renovated buildings at Gallup Hill and Ledyard Middle. A district-wide choice for like systems would allow for economic purchasing of parts, simplification of maintenance, as well as a more uniform service and inspection contract.

Previous Town Meeting Action: No previous Town action.

Project Priority:

H Priority within department/program area

Project title: GHS recommissioning
Program Area: School Facilities

Project Description: Eversouce completed a recommissioning study to determine if there are energy savings that can be gained with adjustments to the HVAC system at GHS. The initial study was paid for 100% by Eversource. The second phase of the project is to do a more in depth study to lay out exactly what needs to be done. The investigation cost for GHS is \$32,700 which will be paid 100% by eversource if the recommendations are implemented. Eversource will need a 50% deposit or \$16,350 to begin the investigation phase which will be refunded if the project moves forward. The initial study has an implementation cost of \$120,500 showing yearly savings of \$30,552. Eversource will pay 40% of the implementation cost bringing the entire Town cost for the project at \$72,300 or a 2.4 year payback period.

Evaluation Category: DF

Planning Context: Most of all the recommended changes are BMS programing items that were verified as part of the building project but never addressed by O&G.

Schedule: This work could take place at any time..

Coordination: Work is not contingent upon other CIP projects.

Previous Town Meeting Action: No previous Town action.

Project Priority:

M Priority within department/program area

L Risk of deferring project

Estimated Cost: \$ 2025 \$72,300

Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate.

Cost of comparable facility of equipment
Rule of thumb indicator, unit costs
X From the cost estimate from engineer, architect, or vendor
From bids received
Preliminary estimate, (e.g. no other basis for estimate, guesstimate)

Prepared by: <u>Wayne Donaldson</u>

Project title: <u>LMS recommissioning</u>

Date Prepared: <u>December 1, 2023</u>

Program Area: <u>School Facilities</u>

Project Description: Eversouce completed a recommissioning study to determine if there are energy savings that can be gained with adjustments to the HVAC system at LMS. The initial study was paid for 100% by Eversource. The second phase of the project is to do a more in depth study to lay out exactly what needs to be done. The investigation cost for LMS is \$28,400 which will be paid 100% by eversource if the recommendations are implemented. Eversource will need a 50% deposit or \$14,200 to begin the investigation phase which will be refunded if the project moves forward. The initial study has an implementation cost of \$41,400 showing yearly savings of \$21,015. Eversource will pay 40% of the implementation cost bringing the entire Town cost for the project at \$24,840 or a 1.2 year payback period.

Evaluation Category: DF

Planning Context: Most of all the recommended changes are BMS programing items that were verified as part of the building project but never addressed by O&G.

Schedule: This work could take place at any time..

Coordination: Work is not contingent upon other CIP projects.

Previous Town Meeting Action: No previous Town action.

Project Priority:

M Priority within department/program area

Rule of thumb indicator, unit costs

L Risk of deferring project

Estimated Cost: \$ 2025 \$24,840

Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the
estimate, do so with a narrative after indicating the type of estimate.
Cost of comparable facility or equipment

X From the cost estimate from engineer, architect, or vendor

From bids received

____ Preliminary estimate, (e.g. no other basis for estimate, guesstimate)

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021 Project Title: GFS Playground Surfaces Program Area: School Facilities **Project Description:** Gales Ferry School Playground has poured rubber surfaces, original to building construction (2001). Currently, the surface is in Fair condition; however, given their age, and the ten-year timespan of this Capital Request, it is prudent to expect replacement toward the end of the timespan. **Evaluation Category: SR** Planning Context: Further study necessary. **Schedule:** Schedule will follow deterioration of surface conditions. **Coordination:** Work is not contingent upon other CIP projects, however PMBC will obtain cost/benefit and lifecycle information on various playground substrates, which will aid in selection for this project. **Previous Town Meeting Action:** No previous Town action. **Project Priority:** M Priority within department/program area L Risk of deferring project Estimated Cost: 2027: \$50,000 Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate. Cost of comparable facility or equipment Rule of thumb indicator, unit costs From the cost estimate from engineer, architect, or vendor From bids received X Preliminary estimate, (e.g. no other basis for estimate, guesstimate)

Prepared by: Wayne Donaldson Date Prepared: 12/1/2023 Project title: JWL playground replacement Program Area: Facilities **Project Description:** One of the current playscapes at JWL has sections that have been damaged from wear and tear. This has resulted in closure of portions of the playscape. After consultation with multiple suppliers and determining that the existing unit does not meet safety requirements in some areas, the best option is to replace the entire unit. **Evaluation Category: DF Planning Context**: It is important that students have vigorous physical activity and playscapes are one of the tools used to help provide this to students. The existing student enrollment would be severely limited with the loss of one of the two current playscapes. Schedule: Anytime Coordination: None Previous Town Meeting Action: None **Project Priority:** L Priority within department / program area L_ Risk of Deferring Project **Estimated Cost:** \$70,000/2025 Cost of Comparable Facility or Equipment Rule of Thumb Indicator, Unit Cost Cost Estimate from Architect, Engineer or Vendor X From Bids Received Preliminary Estimate, (e.g. no other basis for estimate guesstimate)

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021 Project Title: JWL Playground Pavement Program Area: School Facilities **Project Description:** The playground pavement at Juliet Long School has many cracks, heaves, and divots; many are becoming tripping/safety hazards. In addition to this, the drainage from the paved areas needs to be addressed, as currently pitch leads toward swing set areas; heavy rains lead to the washing away of playground surface mulching. The age of the pavement is uncertain, but the pavement is likely to be original. Approximate area: 2,800 square yards. Further study is needed to determine scope of work - if removal of existing asphalt will be necessary, or if these issues can be addressed without full scope of removal. Evaluation Category: DF, RPH Planning Context: Chow-Lawler (1996) and SMMA (2011) both spoke to the issue of playground surface needs. **Schedule:** Summer work would provide the best conditions for the process, and the least interference with student activities, although it would interfere with Town P&R camp activity. Also, if coordinated with Town summer pavement projects, a substantial discount on material may be obtained. **Coordination:** This work is not dependent on any other capital work. **Previous Town Meeting Action:** No previous Town action. **Project Priority:** M Priority within department/program area L Risk of deferring project Estimated Cost: \$ 2027: \$70,000 Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate. Cost of comparable facility or equipment Rule of thumb indicator, unit costs X From the cost estimate from engineer, architect, or vendor From bids received

Prepared by: Wayne Donaldson Date Prepared: <u>December 1, 2021</u> Project Title: LHS Curb Repair Program Area: School Facilities Project Description: Approximately 25 radius sections and 30 straight sections of concrete curbing have been damaged beyond repair, and many more seem to be deteriorating similarly. It is possible that there was a bad mix of concrete that has accelerated this damage. This budget figure is an estimate to address these major issues to start with, but further investigation is needed to implement a plan to preserve or replace the rest of the curbing, if possible. **Evaluation Category: DF** Planning Context: Curbing was installed as part of the 2001/2002 Critical Needs work at Ledyard High School. Schedule: Summer or vacation work would be necessary to keep traffic and parking from construction areas. **Coordination:** Work is not contingent upon other CIP projects. Previous Town Meeting Action: No previous Town action. **Project Priority:** M Priority within department/program area L Risk of deferring project **Estimated Cost:** 2025: \$4,000; 2026: \$4,000; 2027: \$4000; 2085: \$4000 Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate. Cost of comparable facility or equipment X Rule of thumb indicator, unit costs From the cost estimate from engineer, architect, or vendor From bids received __Preliminary estimate, (e.g. no other basis for estimate, guesstimate)

Prepared by: Wayne Donaldson Date Prepared: <u>December 1, 2021</u> Project Title: Air Conditioning Program Area: School Facilities **Project Description:** This project would be designed to bring additional air-conditioned areas to Ledyard High School. Currently, there are several rooms served by "window type" air conditioning units for various needs—rooms that are not served by HVAC but see summer use, rooms with student or staff medical needs, or rooms with technology that require conditioned space. Systematically replacing these with "mini-split" technology would increase air quality and energy efficiency. Evaluation Category: IOE/EPS Planning Context: Split system air conditioning units were installed in the Computer Labs at LHS as part of the classroom renovation. Schedule: This work can be done by Staff at any time. Priority areas to be addressed will be computer labs and rooms with medical needs. **Coordination:** Work is not contingent upon other CIP projects. **Previous Town Meeting Action:** No previous Town action. **Project Priority:** MH Priority within department/program area L_ Risk of deferring project Estimated Cost: 2025: \$8,000; 2026: \$8,000; 2027: \$8,000; 2028: \$8,000 Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate. X Cost of comparable facility or equipment Rule of thumb indicator, unit costs From the cost estimate from engineer, architect, or vendor From bids received Preliminary estimate, (e.g. no other basis for estimate, guesstimate)

Prepared by: <u>Wayne Donaldson</u> Date Prepared: <u>December 1, 2021</u>

Project Title: <u>Athletic Field Repairs</u> Program Area: <u>School Facilities</u>

Project Description: This project is a continuation to improvements made on athletic fields at Ledyard High School. The introduction of a watering/fertilization program has been successful and will be continued. New backstops were installed on the varsity fields and the JV baseball field in 2020. Dugouts for the Varsity fields were updated in 2021.

Evaluation Category: DF

Planning Context: Continuation of concerted effort to improve the conditions of athletic fields.

Schedule: This work could take place at any time, scheduled around athletic season

Coordination: Work is not contingent upon other CIP projects.

Previous Town Meeting Action: Funding provided for previous work.

Project Priority:

M Priority within department/program area L Risk of deferring project

Estimated Cost: 2025: \$7,500; 2026: \$7,500; 2027: \$7,500; 2028: \$7500

Basis of Cost Estimate: Check one of the following. If you want to provide more detail on the estimate, do so with a narrative after indicating the type of estimate.

<u>X</u> (Cost of comparable facility or equipment

Form 1. Individual Project Proposal Descriptions and Justification

Prepared by: Wayne Donaldson Date Prepared: December 1, 2021

Project Title: LHS Masonry Repair Program Area: School Facilities

Project Description: Several areas of the LHS brick façade are in need of repair. A false column near the media center is pulling away from the building and has no wire ties to the building; the main chimney would benefit from installation of a cap; several areas in need of repointing. Further, more in-depth investigation is needed to establish the full scope of need, but this budget figure is an estimate to address these major issues to start with.

Evaluation Category: DF

Planning Context: The chimney was repaired approximately 7 years ago, but capping was not in the budget/scope of work.

Schedule: Summer or vacation work would be necessary at the media center location of work; however, several other areas could be addressed at any time.

Coordination: Work is not contingent upon other CIP projects.

Previous Town Meeting Action: No previous Town action.

Project Priority:

M Priority within department/program area

L Risk of deferring project

Ledyard Board of Education 2024-2025 Budget Funding Contingency Plan

The Ledyard Town Charter Revision, dated December 3, 2018, requires the Board of Education to include as part of the annual budget submittal, "plans for dealing with additional reductions in State funding that might occur after the Board of Education budget is prepared that could include reduction in services."

Upon direction from the Ledyard Town Council that included a target reduction amount, the Ledyard Board of Education will evaluate the Board of Education adopted budget to identify potential specific reductions. It should be understood that any reductions to the budget will impact programs or district services to students.

It is important to consider that the Ledyard Board of Education budget is approximately 72% salary and wages. The remaining portions are made of relatively small allocations of mostly required expenses including student transportation. Any reduction to the 2024-2025 approved Board of Education budget would necessitate a reduction in staff, which will potentially result in reduction in the number of class offerings, programming and student opportunities.

Collective bargaining rules and current contracts would require the newest hired staff, potentially the lowest compensated to be eliminated first, based on their particular assignment and the least impact to students.

For example:

- A \$110,000 reduction could necessitate the reduction of two teaching staff
- A \$180,000 reduction could necessitate the reduction of two teaching staff and three paraprofessional staff
- A \$210,000 reduction could necessitate the reduction of three teaching staff and two paraprofessional staff
- A \$260,000 reduction could necessitate the reduction of three teaching staff and four paraprofessional staff

The Board of Education will conduct Special Meetings, as required, to review the options identified by the Central Office and Staff and develop and approve a proposed budget revision to address the Town Council required reduction(s).
