Good afternoon Ms. Stone:

Please be advised that the applicant has retained the firm of Angus McDonald/Gary Sharpe and Associates to prepare a wastewater renovation analysis with respect to this project. That analysis will not be ready for the May 30, 2024 public hearing. Therefore, after the applicant's initial presentation and any public comment, we intend to request that the Commission continue the public hearing to allow the applicant's consultant sufficient time to complete its investigation and submit its report. It is our opinion that any Department comment without the benefit of that study would be incomplete and based on insufficient information.

Harry B. Heller

Good Afternoon,

Thank you for your email. DPH is in the process of drafting testimony, pursuant to CGS Section 25-32f, on this project proposal. Copying our Summer Environmental Engineering intern, Joe Zeppieri, as he will be working with us to perform a comprehensive evaluation of the proposed development. We intend to provide our final assessment, via the DPH Commissioner, to the Town prior to public hearing.

Please continue to keep us in the loop for any additional revisions to the project proposal, and associated concerns of Groton Utilities, to ensure that our testimony is aligned with the current iteration of the subdivision development specifications.

Very Respectfully,

LISETTE STONE
