**Subject:** Rebuttal Report

Dear Ms. Burdick,

I am responding to exhibit 138-1,2 and Beth Ribe's request of arsenic data that was referenced in my presentation and dialogue report #121 & #122 respectively as submitted on 10-24-24. In addition, my report also encompasses lead as one of the 25 metals reported in GFI's presentation (exhibit 77) on the geology of Mount Decatur. I will also provide to the commissioners a more highly resolved set of pictures of the geography included in my report submitted today at the 12-05-24 public meeting.

Sincerely,

Phil Fiore
