Subject: Design Guidelines

Dear Ms. Burdick - I have been following the process to reinstate design guidelines for construction in Ledyard and wish to commend the Planning and Zoning Department and Commission for its work in this effort.

I believe the town will be well-served by the establishment of design districts that preserve our vernacular residential and small-town character. Naturally, I am particularly interested in this effort for Gales Ferry.

I would also like to emphasize the need to retain maximum height restrictions at 35 feet. I believe Looming structures rivalling the height of even nearby mature trees would cause permanent damage to Gales Ferry.

Thank you very much for your attention.
