Good afternoon Ms. Burdick:

GFI did submit a request for determination. I forwarded a copy of the response to you yesterday to be entered into the administrative record. The determination is valid until November, 2025.

Subject: Additional info re GFI application.

Dear miss Burdick,
Section 11.6.10 of town regulations, titled **Notification of DEEP:** states that If any portion of the property which is the subject of an application within an area designated as "State and Federal Listed Species & Significant Natural Communities" on the most current Natural Diversity Data Base Areas map for Ledyard prepared By DEEP, the applicant must notify DEEP of the application. **This is within such an area.**

A report from DEEP shall be required for any application for Site Plan approval or a Zoning Permit for any such property, and any such application submitted without a DEEP report shall be considered incomplete.

According to Ms Camille Fontana@ct.gov, as of Oct. 17 Cashman has **NOT** submitted an application for their proposal for quarry work or excavation work (same thing). Cashman did submit an application and received permission in April, 2024 for their pier work at the marine terminal.

Please add this to Exhibit #136 or make it an additional exhibit.

Thank you, Jim Gauld
