

Renovations to the Nathan Lester House Barn Door

Description of Proposed Work:

Add functional doors to barn opening facing drive in keeping with traditional style, construction, and appropriate function.

This addition is requested in order to:

1. Secure grounds keeping equipment which is visible and accessible to the public.
2. Prevent weather damage to said equipment and interior of barn.
3. Present a tidier appearance in keeping with a historic and public property aesthetic, providing the ability to hide away modern equipment and refuge bins.
