MSS Electronics is pleased to provide this proposal for your consideration. This quotation shall remain firm for a period of forty-five (45) days from the proposal date, and price is based upon delivery of equipment within three (3) months.

Scope of Work

MSS Electronics proposes to provide and install the equipment listed below and materials to upgrade the system from the existing Keri system to an S2 card access system. The existing readers and cards will be reused while all other system electronics will be upgraded to S2. The base system includes conversion of ten(10) card readers. See Alternate #1 for two additional two readers bringing the total to twelve (12) readers. The town of Ledyard will provide a PC for system programming. The S2 system has no monthly hosting fees.

Equipment

Qty	Description	Unit Price	Ext Price
1	S2 Netbox Controller with 16 reader capacity software and two reader capacity built in.		
4	S2 Card Access Reader Board with 2 reader capacity		
2	Altronix Access Control Power Supply		
1	Misc connectors		
	MSS on Site System Labor for mounting of all equipment, and reassignment of readers ect and mounting of new Power supply. System Testing, Programming and Training		

Clarifications

- All work proposed herein, shall be performed during normal business hours Monday through Friday 8:00 am - 5:00 pm.
- Low voltage wiring shall be reused as is. If existing cabling is determined to be defective it will be replaced at additional cost

Performance Items • Included

- System Installation, Programming and Testing
- One (1) Year Parts and Labor Warranty on all new equipment provided
