Dear Ms. Burdick,

I am genuinely concerned about the quarry proposed in Gales Ferry by Cashman/GFI. My specific concerns are related to the degradation of the quality of life in Gales Ferry and more specifically to the Town of Ledyard Zoning Regulations:

11.3.4.D that no adverse effect would result to the property values or historic features of the immediate neighborhood.

11.3.4.E that the character of the immediate neighborhood would be preserved in terms of scale, density, intensity of use, existing historic/natural assets/features and architectural design.

11.3.4.F that the proposed uses would not cause any unreasonable pollution, impairment or destruction of the air, water, and other natural resources of the state.

Between this application and the Klewin Construction one, the town I have called home for 30 years will be destroyed and hoping the Town of Ledyard will thoughtfully consider this community alternation and deny this application.

Yours Sincerely,
