**Subject:** Osten/Ryan Bill on sewer expansion in Ledyard

Osten, Ryan,

<https://www.cga.ct.gov/2025/TOB/S/PDF/2025SB-00938-R00-SB.PDF>

Please modify bill to include funding to reline existing sewers in Ledyard Center which are suffering a known water infiltration problem. And funding for investment in Town Farm plant to reduce environmental impact of Ledyard Center recent sewer expansion. Stonington drinking water supply, important estuary, and Mystic tourism downstream of Ledyard effluent discharge.

In regards to Rt. 12 expansion read Ledyard POCD underlined in yellow. People have treated Cashman very poorly- like the guy in Stalag 17. Same way I was treated at State Pier. Just like in that movie- people will see how wrong they were. And I expect- despite having been treated like shit- Jay Cashman would still help the town with a smile.

Sincerely,  
Kevin Blacker

### **3. Enhance economic development and expanded infrastructure**

Providing sewer and water services, such as along Route 12, is a key development. The Town of Towson construction of either a new plant or generate additional capacity, which can offset design costs. Chemical plant infrastructure could be an opportunity (e.g., Ferry) instead of abandoned
