Subject: Ethics

Councilors:

I write in support of the recent letter submitted to you from Lee Ann Berry, President of the Gales Ferry District regarding an Ethics Code/Commission/Committee.

I urge you, for the protection of citizens and dedicated public servants of the Town of Ledyard, to address this matter as a priority and implement a Code of Ethics ASAP beginning with this week's meeting.

My question is: Why would anyone NOT want to have a Code of Ethics in place? It helps everyone to clearly define boundaries and ensure business is conducted fairly. Thank you for your consideration of this matter and for all your work.

Respectfully,
Ellen Atwood
