

Impact of Large High-Rise Multifamily Developments on The Privacy and Value of Adjacent Residential Properties

RECEIVED

JUN 26 2025

For Continuation of PZC #25-2 ZRA Public Hearing on June 26, 2025

Prepared by: Eric Treaster

Land Use Department

The second page of this exhibit is a photograph of 16 Senkow Avenue, which is a single-family home located on the east side of Senkow Avenue, adjacent to the west boundary of the Triton Square Apartment complex. The third page is the property card for the Triton Square apartment development, and the fourth page is the property card for 24 Senkow Avenue, another property located on Senkow Avenue that is adjacent to the Triton Square development.

The photo shows that the top floors of the Triton Square complex have what appears to be an unobstructed view into the rear yard and the rear windows of the home. The image is representative of the loss of privacy for all of the homes on the east side of Senkow Avenue. More than due to traffic, congestion, and shade, the loss of privacy is the main reason for the reduction in property values of homes on the east side of Senkow Avenue.

Of all of the homes on the east side of Senkow Avenue, there is only one with a property card that lists both a sales price that predates when the knowledge of the Triton Square Apartment development became public information and the market value of the property as of the October 1, 2021 revaluation by the Groton Tax Assessor.

The first property card indicates that, as of October 1, 2021, the address of the Triton Square Apartment complex was expected to be 1 Triton Square. The street name and number could only have been obtained from a site plan after it was approved and became public information, which was before the October 1, 2021, evaluation. The fact that knowledge of the Triton Square complex was public information is confirmed in the middle of the property card, which indicates that the property will be a high-rise apartment building.

The second property card is for 24 Senkow Avenue, another single-family property located adjacent to the Triton Square Apartments. The lower left-hand corner indicates that the property sold for \$190,000 on June 3, 2008. However, directly above the \$190,000 sales price, it shows that the Groton Tax Assessor established a fair market value of only \$173,800 as of October 1, 2021, which was after the development of the Triton Square Apartments became publicly known.

The reduction in value, as shown on the property card for 25 Senkow Avenue, constitutes evidence showing that adjacent properties experienced a decrease in value at the same time the development of the Triton Square apartment complex became publicly known.
